

Dear City Plan Commission,

I am writing to voice my opposition to the proposed Trinitas residential development in the Riverworks industrial area. In an effort to maintain and grow businesses in the Milwaukee area, the first step is to keep the industrial areas that already exist. The site for the Trinitas development would better serve the people of the city of Milwaukee if it is maintained industrial and can attract industry to bring more family supporting jobs.

Elias Grinding Company has been at its present location since 1945 which is evidence of our commitment to the Riverworks industrial area. I am asking for the continuance of the area zoned for industrial use.

Sincerely,
Edward Elias
President
Elias Grinding Company
