The FBI Uniform Crime Reporting program is comprised of two different data collection systems, Summary Based Reporting (SBR) and Incident Based Reporting (IBR). The Milwaukee Police Department records and reports all data to OJA/FBI, and in our COMPASS Map, in IBR format. OJA converts this IBR data to SBR values, as seen in this report. IBR and SBR cannot be directly compared because the counting methods are different. For example, SBR applies the UCR Hierarchy Rule: when more than one Part I offense occurs in the same incident, the offense that is highest on the hierarchy list is counted and the other offenses are ignored. (p.10 FBI UCR Handbook). IBR counts all the offenses that occurred in an incident.

## Threshold Report: 2011 UCR Data

	2006	2007	2008	2009	2010	Avg	Wtd. Avg.	Normal Range	2011	Change
HOMICIDE	103	105	71	72	95	89.2	85.93	74-104	86	-4%
RAPE	237	236	204	205	196	215.6	208.07	198-233	203	-6%
AGG ASSAULT	3980	4186	3879	3215	3102	3672.4	3490.60	3240-4105	2687	-27%
ROBBERY	3670	3536	3242	3179	2943	3314	3193.27	3054-3574	3335	1%
BURGLARY	5791	6220	6354	6581	6206	6230.4	6309.80	5973-6488	6890	11%
THEFT	24902	24408	23821	23485	21243	23571.8	23022.40	22310-24834	19546	-17%
AUTO THEFT	8380	7754	6540	4875	4330	6375.8	5643.87	4802-7949	4550	-29%
ARSON	321	349	319	359	249	319.4	310.47	281-358	265	-17%

\*Average: Each year counts equally.

\*Weighted Average: Recent years count more than older years.

\*Change: Based on 2011 compared to Average.

The Threshold Report is an analytical tool used to put data into a broad context through a five year trend. It compares 2011 data to a normal range of expected values, to avoid conclusions based on single year anomalies.

# Response Time

- Comparing 2007 to 2011, median response times for calls for service:
  - P1 +00:39
  - P2 +02:31
  - P3 -01:05
  - P4 -04:17
  - P5 +01:05
  - ALL CALLS +00:42
  
- TCD implemented a new policy for P3 Entry calls (burglaries) beginning in October 2011:
  - 39% decrease in median response time and 57% decrease in mean response time to P3 Entry calls (Q3 2011 to Q4 2011)
  - 39% decrease in median response time and 47% decrease in mean response time to P3 Entry calls (Q4 2010 to Q4 2011)

# Differential Police Response

In 2011, a total of 34,401 calls were referred to personnel assigned to the Differential Police Response (DPR) Unit. This call load represents 32% of all P3/P4 calls.

In 2011, a total of 11,172 citizens responded to follow-up surveys with the below listed results:

Very Satisfied	8.3%	930
Satisfied	66.8%	7,466
Not Satisfied	15.7%	1,756
Very Dissatisfied	4.1%	453
No Opinion	5.1%	568

**75% were either very satisfied or satisfied with their DPR experience**

# 2011 OpenSky Radio System Summary

- New two channel amplifier installed in August 2011 atop the M&I Bank building
  - Eliminates most dead spots in the downtown area
- Second OpenSky base was added to Fire Engine houses 10 and 22 in September
  - Doubles throughput of each site & provides another eight additional talk paths
- Second OpenSky base at Engine house 38 re-activated in September
  - Adds an additional four talk paths
- The District 7 OpenSky site helps eliminate North side dead spots
- A total of 24 new talk paths were added to the OpenSky radio system in 2011
- Talk channels at the OpenSky radio sites were restructured to optimize system-wide performance.
- OpenSky portables were programmed with patch 18.B in the summer of 2011
  - Patch 18.B enabled portables to switch radio sites faster, keeping an active watch on the next best available site
  - Patch 18.B has reduced frequency of “triple-beep” Radio Trouble Reports (not being able to access system)
