Dear Common Council Committee:

First, thanks for the opportunity to submit this proposal for a dynamic, innovative charter school that will help students to succeed in a profession that continues to have a need and grows rapidly despite economic challenges.

This letter is presented to you to assure the council that we are diligently seeking the \$300,000 line of credit requested in the proposal. The GNLA board is mobilizing to bring financial resources together to meet this condition of the proposal.

Sincerely,

Edna Hudson  
Board President
