In accordance with the provisions of Section 320-21 (11) and (12) of the Milwaukee Code of Ordinances, the Milwaukee Historic Preservation Commission has issued a certificate of appropriateness for the work listed above. The work was found to be consistent with preservation guidelines. The following conditions apply to this certificate of appropriateness:

The new fence will be built according to the drawings and survey attached to this COA. Fence must be painted or stained upon completion. Please note that research has shown that when new bare wood is left exposed to to exterior elements for a period of only a week or two, the life of the paint job subsequently applied to it will be decreased.

All work must be done in a craftsman-like manner, and must be completed within one year of the date this certificate was issued. Staff must approve any changes or additions to this certificate before work begins. Work that is not completed in accordance with this certificate may be subject to correction orders or citations.
