

Department of the Municipal Court Kristine M. Hinrichs Chief Court Administrator

February 7, 2002

Police Chief Arthur Jones 749 West State Street, 7<sup>th</sup> Floor Milwaukee, WI 53233

Dear Chief Jones,

We are writing to formally request that the space in Room 216A of the Police Administration Building, formerly used by the traffic bureau, be allocated for use by the Municipal Court to house staff of the Wisconsin Correctional Service (WCS). As you know, we have discussed the court's needs with you and your staff on several occasions and have reviewed a variety of alternatives.

As a contractor to the court, WCS provides important social services by working with defendants with AODA problems, mental health issues and/or indigent defendants to help the court deal with these defendants in a humane and equitable manner. As police citations and case filings increase, so do the number of defendants making use of WCS services. We simply need more space to accommodate these defendants - this need is immediate and serious.

You have assured us that the court would receive consideration as the police department relocates a substantial number of staff and functions from the PAB to the new facility on Lisbon Avenue. Based upon your commitment to provide serious consideration for the court's needs, we have secured funding in the 2002 budget for improvements to the 216A space. However, at our last meeting you indicated that the court's needs would be considered only if space happens to be available after all police department needs and wants have been met. This is contrary to our earlier discussions. As the police department now has the advantage of a spacious and functional facility on Lisbon Avenue, we believe that it is time to give the court immediate priority for space within this building.

Over the years, the court has moved our own staff and consolidated our operation to provide space within the first floor to accommodate the needs of WCS - our contractor. However, we long ago reached the limit of our ability to provide more space for them. Consider the following:

- Pour WCS case workers share an office and see clients (simultaneously) in a space measuring 13' x 10'. This "office" provides absolutely no privacy for confidential client discussions, no waiting area, and does not provide for an ability to separate a client who may become unruly from other case workers or clients.
- Three others share an office and see clients in a 10' x 10' space, again with no privacy for confidential client discussions, waiting area, or ability to separate unruly clients from others.
- Two WCS managers share a space in our lobby barely 9 feet square. This space is enclosed by six foot-tall partitions that provide no relief from the noise and congestion generated by the hundreds of people who come into the court each day. In this space they see clients, make arrangements for treatment and other client-related activities, and try to focus on their management responsibilities.

We do not believe that you would expect or allow police department employees or command staff to work under conditions like this. The current conditions are not conducive to the positive resolution of the cases with which WCS is involved, do not protect the privacy of clients, and present serious safety issues for WCS and court staff, clients, and the public.

We see the police department and court as partners in enhancing the quality of life for people in our community and are committed to working with you to continue that partnership. We look forward to your approval of this request. The Municipal Court is ready to proceed to make efficient use of the space we have requested. Please feel free to contact us or Chief Court Administrator Kristine Hinrichs if you have any questions concerning the court's needs.

Yours truly,

LOUIS B. BUILLER, JR.
