Consumer Rated Condition:

Good

"Good" condition means that the vehicle is free of any major defects. The paint, body and interior have only minor (if any) blemishes, and there are no major mechanical problems. In states where rust is a problem, this should be very minimal, and a deduction should be made to correct it. The tires match and have substantial tread wear left. A clean title history is assumed. A "good" vehicle will need some reconditioning to be sold at retail; however major reconditioning should be deducted from the value. Most recent model cars owned by consumers fall into this category.

Private Party Value

\$750

Private Party value represents what you might expect to pay for a used car when purchasing from a private party. It may also represent the value you might expect to receive when selling your own used car to another private party.
