RE: File #141680

TNR (Trap, Neuter, Release) Pilot Program

Aldermen:

I'm writing to express my support for the DNS recommendation to have the TNR program continue in its current form with all the appropriate controls to protect neighbor and community interests.

As someone that works in the Milwaukee neighborhoods, with residents and the Block Watches, I have come across many neighborhoods that have benefited from this program. In my opinion the neighborhoods would be effective in a negative way if this program does not continue.

Thank you for your time.
