Subject: TNR ordinance

Hello my name is Amy Dedow and I am a resident of Milwaukee County. I have also been a volunteer with MADACC for the past 4 years, working specifically with the cats. I highly encourage the continuation of the TNR program and advocate for an expansion of the program. Over the past 4 years the intake of unaltered cats is slowly decreasing. Spay/neuter programs are the one true and absolute way to decrease the population of unwanted cats. With an intake reduction we will see tax dollars being saved. Have the vision to see forward into a future with fewer unwanted cats and fewer tax dollars being spent on holding/vetting these cats at MADACC.

Peace,

Amy Dedow
