1.	Sł projec Great	nipshape l et. The G Lakes M	reat Lakes Marine vessel database wil	rary and the Wisconsin Marine Historical States I be made available on the Internet. The made available on the Internet.	Society, is the final phase of a three yea he project will fulfill three needs of the a reference backlog, and finalizing the
2.	Relationship to City-Wide Strategic Goals and Departmental Objectives: The data being added to, and already in the database is an important part of Milwaukee's maritime history. This relates to the Library's goals to preserve, enhance and transform the Milwaukee Public Library collections and services to effectively respond to changing communities and to emerging technologies. It also applies to the goal to coordinate a grant-writing program to identify, apply for, implement and track grant money to enhance collections equipment and services. It meets the City's goal: to enhance the "value" of Milwaukee including the "connectedness" of its people and the City self vision that encompasses "a flourishing culture recognized for its arts and museums."				
3.	Need f	or Grant F	Funds and Impact on Other Departmental Op	perations (Applies only to Programs):
