

SOUTHEASTERN WISCONSIN WATERSHEDS TRUST

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is made and entered into among the Members of the Southeastern Wisconsin Watersheds Trust (SWWT) as indicated by signature, below. In light of the Regional Water Quality Management Plan Update completed and approved in 2007, this MOU creates a voluntary, non-taxing partnership of independent units of government, special purpose districts, agencies, organizations and members at large that share common goals and have come together to achieve these goals through *coordinated* collaboration and cooperation within the Greater Milwaukee Watersheds.

Mission

The Southeastern Wisconsin Watersheds Trust (SWWT) is a collaborative effort to achieve healthy and sustainable water resources throughout the Greater Milwaukee Watersheds.¹

Primary Purposes of SWWT include:

Primary Purpose 1. To achieve water resource goals and objectives – such as clean water, conservation, and ecological function – through innovative and sustainable practices.

Primary Purpose 2. To improve water quality in the Greater Milwaukee Watersheds to support a healthy regional economy and improve quality of life.

Primary Purpose 3. To test and then implement innovative approaches and practices that will achieve improvements in water resources in a cost-effective way.

Primary Purpose 4. To build partnerships and enhance collaborative decision-making and joint project implementation, engaging government, business, the building industry, agriculture, environmental, and other stakeholder organizations to obtain broad agreement and recommend where to invest funds to get the greatest benefit.

Primary Purpose 5. Through collaborative action, to increase the region's success in attracting new funding and leverage existing funding for water quality and water resource improvements.

¹ The Greater Milwaukee Watersheds are defined as the watersheds of the Kinnickinnic River, Menomonee River, Milwaukee River, Root River, and Oak Creek; Lake Michigan direct drainage; the Milwaukee Harbor estuary; and nearshore Lake Michigan.

Organization

Organizational structure and practices are outlined in SWWT's Policies and Procedures, adopted by the Executive Steering Council on <future date>, to be reviewed annually.

It is mutually agreed and understood by and among the parties hereto that:

This MOU reflects an entirely voluntary commitment among the parties hereto to cooperate and work together to achieve the vision and mission articulated herein. This MOU in no way obligates or restricts the activity of any party hereto in any way.

No Member shall obligate, or purport to obligate, any other Member with respect to any matter.

Any party may withdraw from SWWT at any time by providing written notice to the Chair of the SWWT Executive Steering Council.

In the spirit of cooperation, any project funded by or under the SWWT name is expected to share resulting water resource data or other data related to the Greater Milwaukee Watersheds including geospatial data (electronic and hard-copy) and any data resulting from monitoring, research, and other management, conservation, or educational activities.

IN WITNESS WHEREOF, the parties hereto have caused this MOU to be executed as of the dates written below.
