530 E. College Ave.  
Milwaukee, WI 53207

July 21, 2008

Dear Alderman Bauman:

As a resident of Milwaukee and employee of Kraft Foods, I am writing to encourage your approval of Alderman Bohl's proposed resolution to "support efforts to discontinue federal corn ethanol mandates and cease incentives for corn ethanol production." This measure will be considered at the Judiciary and Legislative Committee hearing this afternoon.

As one of more than thirty Kraft employees in Milwaukee, we recognize that renewable energy and bio-fuels play an important role in sustainable energy for America – improving our energy security and enhancing the economic future of our children. However, recent government policies with regard to bio-fuels have resulted in unintended consequences, including contributing to higher commodity prices, heightening the risk of environmental damage and tightening supplies of food aid to the poor.

We hope that you will take into consideration our views when you are deliberating this important resolution, and hope that you will lend your support when it is voted upon this afternoon.

Sincerely,

Keith Baumgart  
Director – Aviation Services  
Kraft Foods Global, Inc.
