Fences

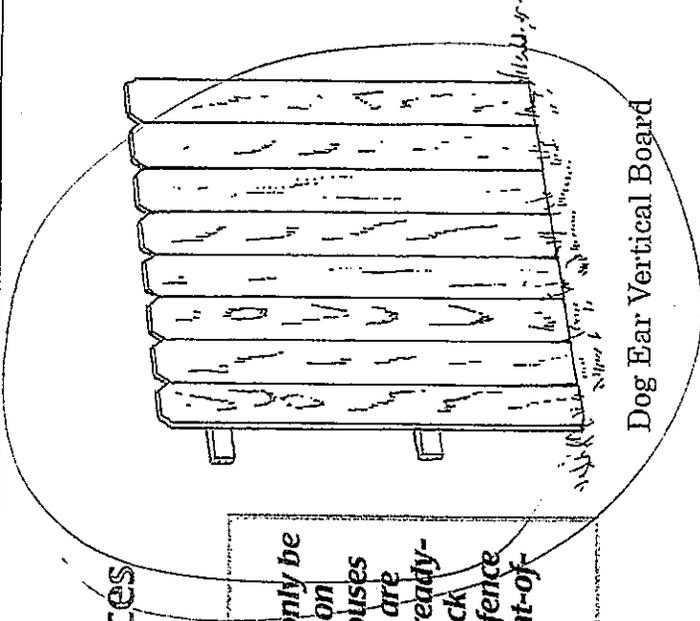

Common Privacy Fences

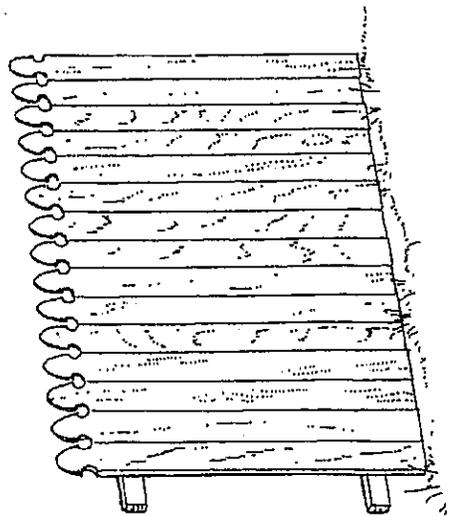

A privacy fence, which is intended to obstruct the view into a yard, should only be built in rear yards. The privacy fences on this page are compatible with most houses built before 1940. Most of these styles are available at building supply stores in ready-made sections or can be built from stock lumber. The finished side of a privacy fence must always face out to the public right-of-way or the neighboring property.

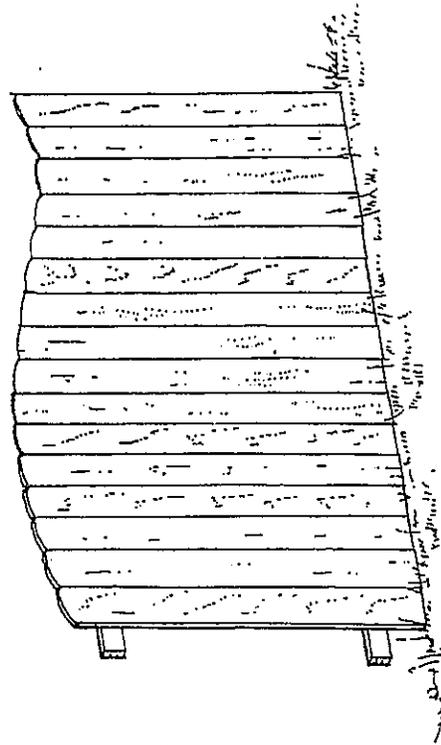

Board and lattice, also called a "treillage fence"
