

PETITION - Bus Rapid Transit Objection

We, the undersigned, object to the implementation of the Bus Rapid Transit (BRT) as it would be a direct loss of business for us. We only have street parking to rely on, and by implementing the BRT we would lose all parking lanes from Hawley Road to the 5900 block of Blue Mound Road.

Many of us have been in business here for over 40 years and this would be an absolute loss of income as well as our livelihoods, should this go through. Our customers "rely" on parking on Blue Mound Road when frequenting our businesses.

The BRT would also mean loss of jobs for the employee's of these businesses, as they rely heavily on the parking. As it stands now, there isn't enough parking for all of the businesses, so any additional restriction of parking would put many of us out of business and our employees out of jobs.
