Dear Tim,

Thanks so much for getting back to me. It was my mistake not to send the back of the application.

Please find attached the paperwork. Is there anything else that you need for this project to be approved?

Warm regards,
Steve Bintz

I have received your application, however it is incomplete. There is a second page to the application which includes space for a mandatory project description and an electronic or written signature. The project description must include ALL exterior work on the building. Please provide a roof plan for the rooftop installation. Rooftop equipment should not be visible from street level and if it exceeds the parapet height, a general guideline is that it should be set back at least 4 feet from the edge of the roof for every 1 foot of height of the equipment above the top of the parapet.

I will also need a description diagram, and dimensions of the vent to be installed on the rear wall and higher resolution photos. Fax quality is unfortunately not adequate to demonstrate existing conditions, so please supply the photos by email or mail.

All this material can be emailed in replay to this email, or our postal address is as follows:
