

## **List of Goals for Task Force Consideration**

***Members should come prepared to discuss this list and select a few of them as task force goals.***

1. Increase Narcan availability in non-medical settings within the community.
2. Increase the amount of prescription drugs collected within the City/County through fixed site locations and MMSD collection days.
3. Coordinate a sustainable public awareness campaign around destigmatizing addiction.
4. Increase MAT treatment capacity within the City/County.
5. Identify federal, state and other funding sources for sustainment of opioid prevention, treatment and control activities in the City/County.
6. Increase prevention capacity - especially looking at residential treatment options through BHD.
7. Increase toxicology capacity through medical examiner – seek funding to modernize equipment to get faster/more accurate data points.
8. Provide data to various consortiums through OEM, BHD, MEO to streamline data needs and reduce duplication.
