Linda,

Please add to the record for Monday.

Thank you.

**Subject:** Historic Gettleman Brewery Buildings 45th & State

I hope we can somehow come to a compromise with Miller Coors on the demolition of the Gettleman Buildings. Simply said the buildings are sound and are a significant part of Milwaukee's Brewery history. They are right across from the tour center. They have been used for several purposes in the not so distant past. To tear them down just to be able to park a few more semi trailers is sad. There must be other locations to park trailers.

As an aside, Miller recently tore down warehouse buildings. The loss of these buildings combined in tax base is over \$1,000,000. We, the people left here will pay for those taxes.

As a human being I feel over-whelmed, and getting tired of going to City Hall to fight things that impact my business, my property values or taxes. I'm overly tired right now so I hope I'm not being too glum. .
