RE: C.I. File No. 1030-2017-630

I wish to appeal the decision on the facts of Brain Fields investigation is very misleading in his analysis of just inventory the trucks tool box for all its tools.

I Asked Brian Fields where the truck was coming from that morning, "he said the maintenance garage". I then asked Brain if the mechanic working on this truck just uses the tool box on the truck. "Brain said NO, they have their own tools."

I then asked Brain Fields if he took an inventory of the mechanic tools who was working on the truck. "Brain said NO."

I asked Brain if there is even a Mechanic inventory list. "Brain said no they have their own tools."

I then told Brain I have friends that work for the city of Milwaukee and they told me that tools are left on the trucks all the time by accident. "Brain said they should not say things like that."

In conclusion the city of Milwaukee needs to reimburse me for their negligence for the damage they caused to my car.

I saw some kind of a wrench fly off the truck which was right in front of me on the freeway. This truck was in the maintenance garage the day before for repairs per City of Milwaukee Fleet Service Records and I am sure it was the first time out after the repairs seeing what time this happened in the morning.

Kim S. Gentz

I am leaving for Mexico May 1 until the 2<sup>nd</sup> week of June. After that date I will be more than happy to discuss this any further with you. Or you may email me at [firechefinc@aol.com](mailto:firechefinc@aol.com) with any questions.

To whom it may concern:

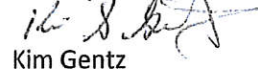

I was driving my car north on I-43 at 9:30 March 8, 2017. I was behind a DWP truck #40017 Plate #18260 by Silver Spring Road. I saw something fly off the back of the truck it hit my wind shield first bounced off the wind shield and hit the top of my roof of the car. I thought it was going to come right through the wind shield, it looked like a wrench of some kind.

I saw the truck turn off on Good Hope. I then called the city of Milwaukee to report what just happened. I talked to Brian Field he said all his trucks are enclosed. I told this one was not enclosed and saw the object come right off the truck and hit my car. He told me I was right it was a wrecker truck.

I did get the wind shield repaired by my insurance company West Mutual Insurance Company March 10 2017 at no cost to me.

Enclosed is the estimate to fix the roof of my car and pictures of the wind shield and dent.

Thank you

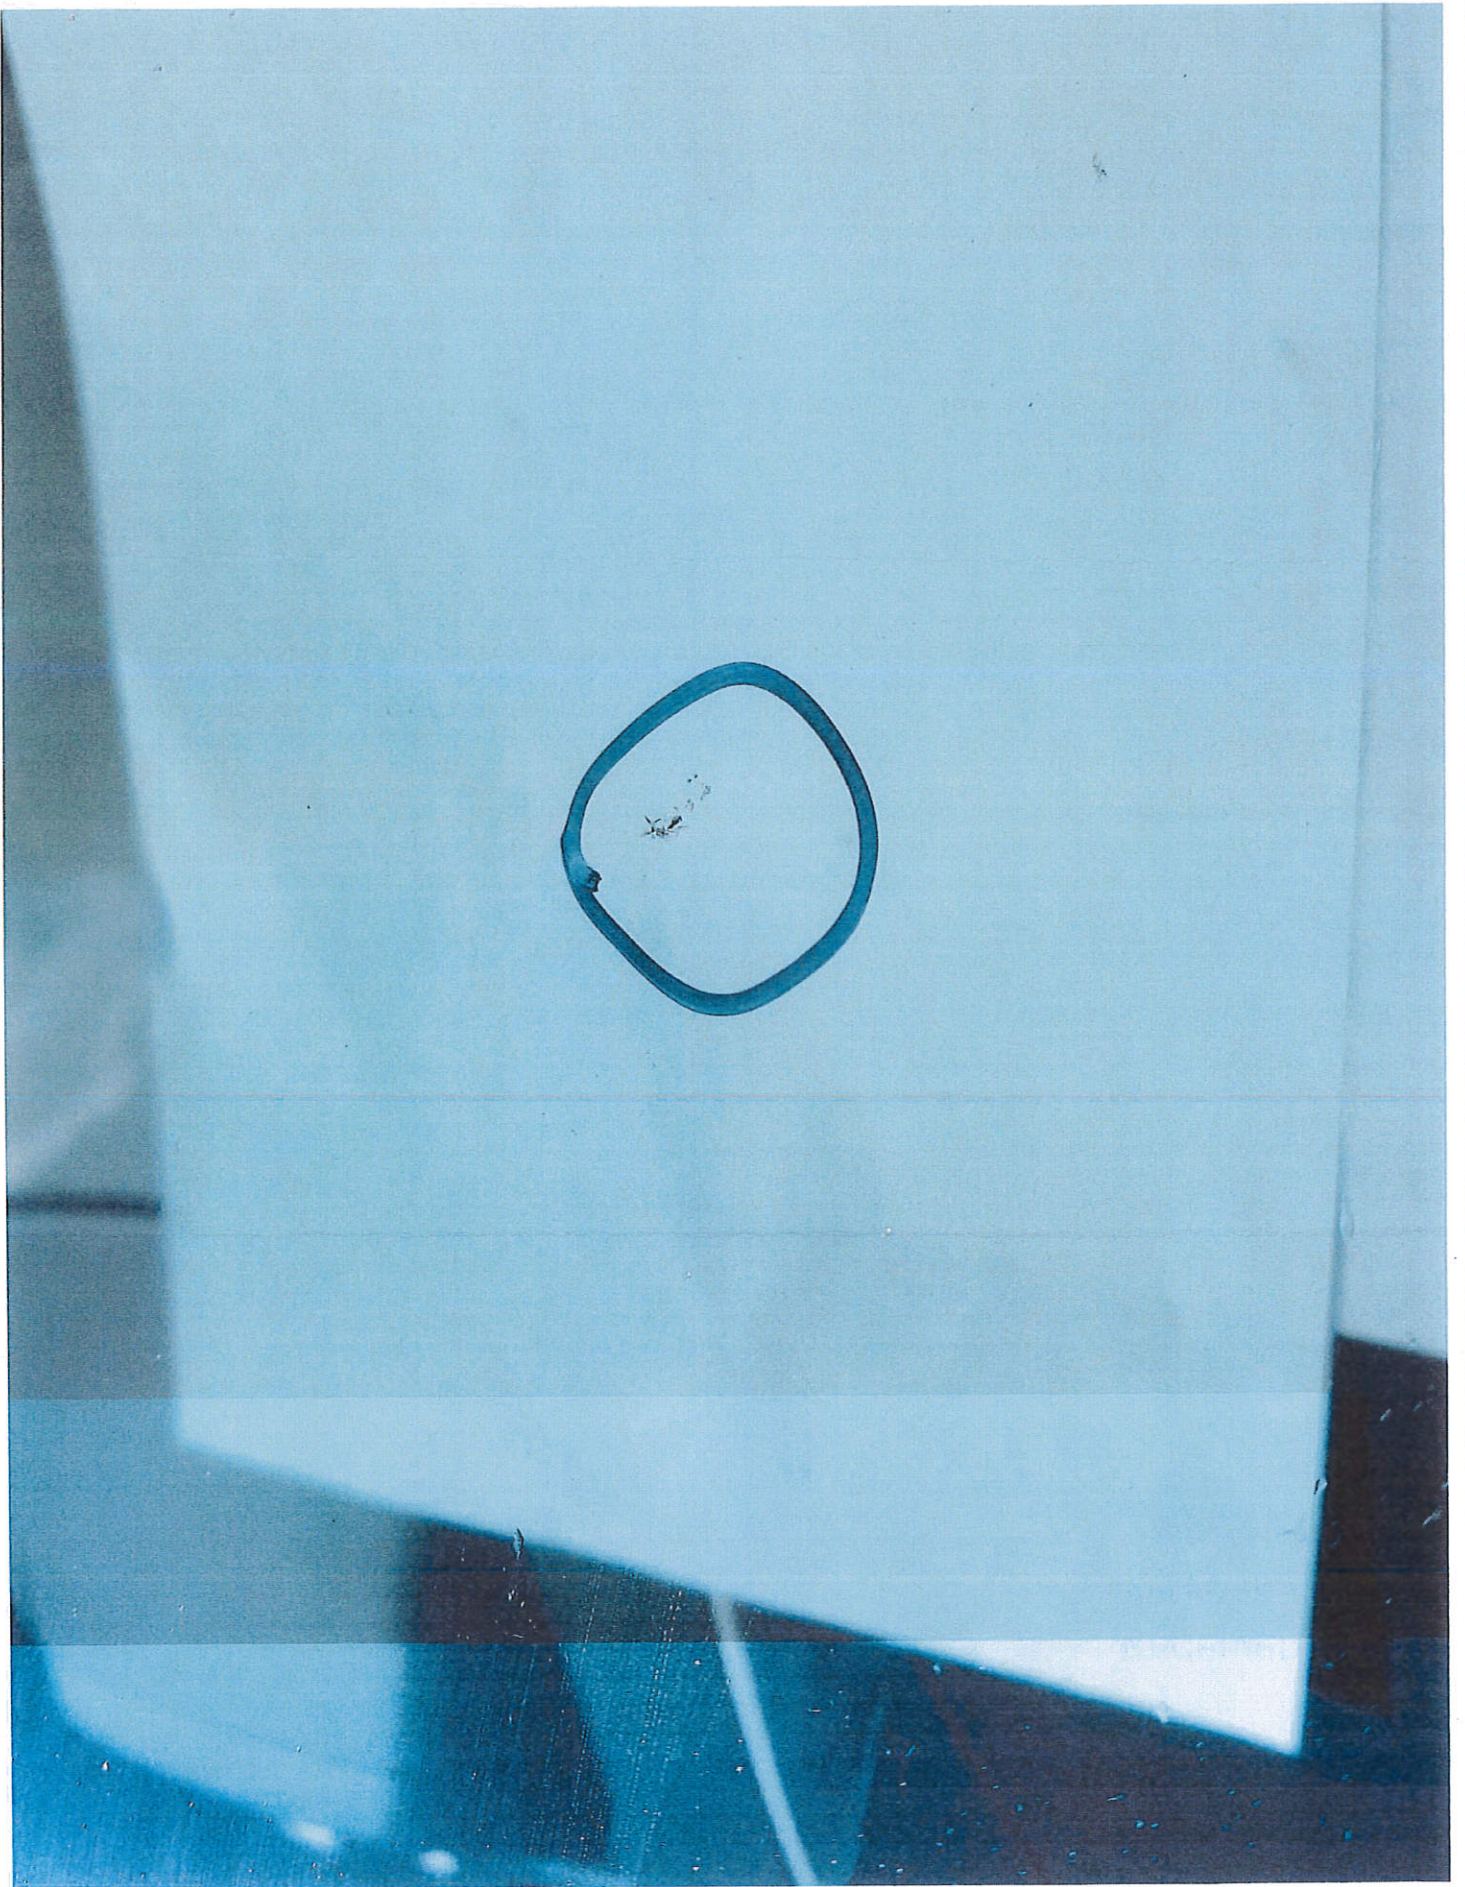

Kim Gentz

RECEIVED

The estimate includes to replace the wind shield both places said the wind shield should be replaced because of the place of the nick is in the vision of the road and will interfere more as time goes on because of the sealer. A crack like it has is going to spider web the fix they did is just a temporary fix.

Kim
