CITY CLERK'S OFFICE

I am writing you in regards to the appeal letter which was dated for May 8th, 2017. I feel as if this decision that was reached may be a error. It was told to me that the police department called the Department of public works at around 2:35am which comes to find out its stated in the police report that I obtained as well. The call was made to the police a hour prior to them calling the Department of Public works. I feel that the damage that was done to my car is a result of negligence of the City of Milwaukee just on the strength it took a hour for the police to even contact Public Works. This shouldnt have taken a hour for them to be contacted. Not to mention, a officer should've came to the scene right away because something like this could've caused a serious pile up because of the way the light pole was laying in the street. The police was notified before I ran it over, but took a hour to even notify public works, let alone showing up to the scene. If everyone would've been more proactive to the call, this would've never happened to me.

To Whom This May Concern:

On Friday, December 30th 2016 in the morning at approximately 1:30am, I (Dayna Garrett) was driving my 2013 Chrysler 200 going up Appleton Ave towards the HWY 41/45. I was driving in the far right lane and as I was driving it got dark out of nowhere so I assumed it was a blackout. All of a sudden I see a light pole lying in the street. By the time I seen it, it was too late for me to swerve into the left lane so I had no choice but to go over the pole. The pole damaged my transmission and my rim. In result of running over the light pole, I have to get another transmission put in due to the whole that was punchier causing it to leak, and a new rim and tire. I enclosed 2 estimates of how much it would cost to get the repairs fixed. Any questions or concerns please call me at 414-544-4380 or 262-577-1274. I also called it in to the City of Milwaukee as well so they could be aware of this issue.

Dayna Garrett
