5. **DESCRIPTION OF PROJECT:**

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached.

The existing parking lot on the South side of the building has been broken up due to the use of the lot for staging as well as heavy construction traffic.

The lot is currently an asphalt lot, stripped with 8' x 18' stalls. and contains existing site lighting on wood poles with cobra head lights.

The lot is accessed off of the north alley, east alley and from the south off of Oregon Street.

The lot currently does not have landscape or fencing around the perimeter of the site.

The intent of this request is "maintenance in nature"

We are requesting a certificate of appropriateness to resurface the parking lot with asphalt and restrip the lot as shown on the attached sketch.

Existing parking lot lighting will remain with one damage pole being reset by WE energy.
Light poles and fixtures are currently the property of WE energy.
