## Product and Performance Information

NFRC energy ratings and values may vary depending on the exact configuration of glass thickness used on the unit. This data may change over time due to ongoing product changes or updated test results or requirements.

The National Fenestration Rating Council (NFRC) has developed and operates a uniform national rating system for the energy performance of fenestration products, including windows and doors. For additional information regarding this rating system, see [www.nfrc.org/WindowRatings](http://www.nfrc.org/WindowRatings).

Review the map below to determine if your units meet ENERGY STAR for your location.
