---

**OBJECTIVE:** To be appointed as the Department of City Development's representative to the City of Milwaukee Bicycle and Pedestrian Task Force.

**EDUCATION:** **M.S. Urban and Regional Planning** May 2006  
Concentration: Land Use Planning  
GPA: 3.91 / 4.00  
University of Wisconsin, Madison, WI

**B.S. Civil Engineering** December 2000  
Emphasis: Environmental Engineering  
GPA: 3.61 / 4.00  
Iowa State University, Ames, IA

## PROFESSIONAL EXPERIENCE:

**Redevelopment Authority of the City of Milwaukee** August 2006 – Present

- **Senior Environmental Project Coordinator.** Primary responsibility is the management of the environmental investigation, cleanup, and redevelopment of brownfield sites throughout the City of Milwaukee, with a particular emphasis on sites within the 30<sup>th</sup> Street Industrial Corridor. Other responsibilities include:
  - Grant management for state and federal brownfield grants
  - Stormwater management planning for the 30<sup>th</sup> Street Industrial Corridor
  - Department representation on the Bike Plan Update Steering Committee

**Strand Associates, Madison, Wisconsin** January 2001 – August 2006

- **Transportation Planner.** Performed a wide variety of transportation studies ranging from site-specific traffic impact studies and transportation demand management (TDM) plans to multi-county corridor studies, environmental assessments, and environmental impact statements. Also designed and coordinated many aspects of public involvement, including specialized outreach to minority and low-income stakeholders.
- **Environmental Engineer.** Worked on a variety of environmental engineering projects such as air permitting, noise modeling, hazardous materials assessments, and brownfield grant opportunities.
- **Green Team Founder and Leader.** Initiated and led a voluntary, grassroots collaboration within the firm. Our goal was to "green" our internal office activities as well as encourage our engineers, architects, and scientists to promote sustainable solutions for our clients.
