Subject: Public meeting

Dear sir

I am writing to express my support for not developing the 5 acres on Bay Street.

It is close enough to the port it could be used for the railroad, perhaps dual use passenger, as there is a ferry boat nearby.

I would prefer a park to more housing.

Given the port is adjacent to it, park land is the best option. It would be a lot easier for real development of the land in the way I stated previously if no houses were on it.

Even if it was used as railroad for the port it would be better development than residential housing. The land should not become residential.

I'm sorry I am unable to attend the meeting tonight. I received notice of the event approximately 6 hours before it. I have other plans, and need a day or two before I can respond by attending a meeting.
