As a taxpaying citizen of the city of Milwaukee I urge the denial of the current request for development at 1550 N. Prospect Ave. The proposed building is too large for the lot size, will result in damage to the bluff and construction processes may cause damage to the surrounding buildings for which the city of Milwaukee may be liable according to the city attorney. Also trying to move the Gall Mansion twice will probably result in the death of this historic structure.

Respectfully David L. Raasch
