Alderman James Bohl Jr.
Chairwoman Patricia T. Najera
Mr. Chris Lee
City Plan Commission & Zoning & Neighborhood Development
809 North Broadway
Milwaukee, WI 53202

Dear Mr. Bohl, Ms. Najera and Mr. Lee:

I am writing to voice my support for development projects in the Milwaukee metropolitan area that provide residential housing to an expanding and growing market. It is my understanding that the proposed 1550 N. Prospect Avenue Development would fall into the category as one of these projects. As you are aware, the growth and expansion of industry in the Milwaukee market has occurred at a rapid rate over the last 5 years. This has put a demand on housing and specifically the highly sought after downtown apartment/condo style dwellings for residents seeking this living arrangement.

My company is extensively involved in the development and construction of the new sports arena in downtown Milwaukee. Needless to say, this is a very impactful project for the city that ensures Milwaukee will be in the upper echelon of cities for residing in both the Midwest and the United States. Combine this with the recent announcement of industry movement and expansion within southeastern Wisconsin, the Milwaukee metropolitan area is poised for expansive growth for years to come. Development projects to support the increased housing requirement is going to be desperately needed to support this growth.

As we have realized from recent construction projects in the city, the amount of labor and workforce required to complete these projects is substantial. A majority of the workforce is local and reside within Southwestern Wisconsin's 7 local counties. Projects of this nature not only have a long lasting impact on the city, but also an immediate impact on the community with job and career opportunities for its residents.

It is my belief that if Milwaukee wants to continue to compete with other cities within the Midwest for attraction and retention of residents, we must continue to provide the amenities and features that larger cities can offer while doing it in the confines of our community that is based on our rich heritage, family orientation and friendly environment along the shores of Lake Michigan.

Thank you for your consideration for helping to move this project forward.

Respectfully,

Ty Staviski
Senior Vice President & Chief Financial Officer
MILWAUKEE ELECTRIC TOOL CORPORATION

Re: 1550 N. Prospect Ave. Development - Support Letter

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development.

I am in support of this project as it seems to be the best way to preserve the historical significance of the Goll Mansion while creating jobs and attracting young talent to stay and live in downtown Milwaukee. As a young professional, I can attest that many of my peers prefer to utilize ride-sharing apps like Uber and Lyft when traveling downtown. Having said that, the idea that parking will cause a problem is only valid in the minds of people who are unaware of this massive shift taking place in the way young people commute and travel. This is a no-brainer and if it's not approved, it will exhibit the lack of foresight and vision that downtown Milwaukee is desperate need of when considering it's young professional citizens.

Thank you for your consideration for helping to move this project forward.

Re: 170406 Support Letter for 1550 N. Prospect Development

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development as someone who lives/works in the City of Milwaukee.

I think this project is a fantastic opportunity to enhance Milwaukee's Gold Coast with regards to aesthetics, tax base, and additional residential density, which in turn can drive further business development on the lower east side. Prospect is lined with high rise apartments, and this project fits with the scale, density and massing of that stretch. Saving the Goll Mansion as a part of this project makes it a win/win, and if I understand correctly, the revenue generated by this project is necessary to support the preservation of the mansion.

Thank you for your consideration for helping to move this project forward.

Best regards,

Re: 1550 N. Prospect Ave. Development - Support Letter

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development. I've lived in the city for my entire life. I'm currently a UWM student, pursuing a degree in Electrical Engineering. I live on the Upper East Side now, and really enjoy it. I also love spending time on the Lower East Side and downtown. I've never had significant traffic or parking problems there, and I think the streetcar could help limit those problems if they do ever arise. I think the new construction, like on North Avenue and Water St, is great. There are so many new apartment options all over, and new restaurants and stores popping up all the time. I think this development cycle has been amazing for the area. One of my dreams for awhile has been to live in one of the incredible high-rises along Prospect, and this building happening will make it possible for hundreds of more people, including hopefully me eventually, to live in a great unit in one of the coolest neighborhoods in the state.

Thank you for your consideration for helping to move this project forward.

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development. Great looking development, and the additional density is great for both tenants and the city (although it's terribly small-mined the design had to be revised to have less tenants). If Milwaukee wants to continue to progress, and rise relative to peer cities, more developments like this are needed.

Thank you for your consideration for helping to move this project forward.

City Plan Commission & Zoning & Neighborhood Development
809 North Broadway
Milwaukee, WI 53202

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development. Milwaukee is on a roll. Investors are coming from all over to invest THEIR money in OUR city. As a nearby resident, I believe there are many reasons to pass this proposal.

- 1) it will increase the population of Milwaukee and the neighborhood and thereby increase the tax base.
- 2) it will create more construction jobs. No one is against creating more jobs.
- 3) tons of projects are moving forward with the assistance of the city and state, yet this one will require no financing from the government at any level. Do we really want to turn down an investment that doesn't cost the tax payer a penny?
- 4) Keep the ball rolling. Milwaukee is receiving national positive attention (most recently a Washington Post article). All the investments leave a good impression on visitors and make locals proud.
- 5) finally, since the developer now owns this land, let them do with it what they want. The neighbors have 0% ownership in this property and should have 0% say in what goes in there. How would you like it if someone told you what you can and can't do with your property? You wouldn't.

Get this thing built!

Thank you for your consideration for helping to move this project forward.

Re: 170406 Support Letter for 1550 N. Prospect Development

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development .

I may not live in Milwaukee, but being from Madison I look up to Milwaukee. It's a great city, with great potential. Milwaukee has to give these developers a chance, just because it's not a big corporation like NWM it doesn't mean you shouldn't give actual developers a chance. Look at other developers, again that aren't some big corporation how many of their projects have actually taken flight? Rarely any. If you want Milwaukee to live up to its full potential you have to let great projects like this happen. These developers are respecting the land and what is history and making something many cities dream of.

Re: 1550 N. Prospect Ave. Development - Support Letter

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development. As a resident of the East Side I support any projects that will add density, vibrancy, and beauty to our neighborhood and skyline. The fact that this project allows a historic mansion to be preserved is an additional bonus. This project will add to the city tax base while also adding residents to support our local businesses and the in progress street car project. I understand there are some who oppose the project as it will obstruct their views and add density adjacent to their building. However, this is not a good enough reason nor does it establish sound precedent for future projects if we allow this vocal minority to dictate whether this development will move forward. Please judge this project on its merits (increasing tax base, preserving Goll mansion, adding density/vibrancy to the East Side) and not on the talk of those opposed.

Thank you.

Thank you for your consideration for helping to move this project forward.

Respectfully submitted,

Ryan Bingham

Can't think of a better location for a high rise apartment building. Occupies a spot which is in the middle of a row of similarly situated buildings, while adding to the tax base and protecting a landmark Milwaukee mansion. I view this as a win-win for the city, and a quality addition to the crest of high-rises situated in a prominent high density location.

Thank you for your consideration for helping to move this project forward.

I strongly support this development. I feel it will positively contribute to the density and appearance of the Eastside. Further, I understand it is a rarity for recent projects to obtain funding outside of a TIF district. I think that we should encourage such action. One final point: it is unfortunate that the opinions of a few neighbors has stalled the growth of the our city. Please consider what is best for all residents, just the squeaky wheels, so to speak. Thank you.

Thank you for your consideration for helping to move this project forward.

Re: 170406 Support Letter for 1550 N. Prospect Development

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development. Grew up in metro Milwaukee, graduated from MU, relocated after graduation due to a work transfer. I continue to keep up with Milwaukee developments and intend to move back in time. Projects like 1550 make it harder and harder for me to not pack up and move tomorrow. I would love to see it get done!!

Thank you for your consideration for helping to move this project forward.

Re: 1550 N. Prospect Ave. Development - Support Letter

I am writing to voice my support for the proposed 1550 N. Prospect Ave. Development. This development will bring more residents to the area and increase the tax base. That also means more residents to support local businesses. As good as this is on its own, it will also preserve a historical building in the Goll Mansion. Stopping this merely because other residents want to protect their own views is not a legitimate reason to deny this development that will add to the city's vibrancy with added density and tax revenue. This is a win win for everyone and should be approved!

Thank you for your consideration for helping to move this project forward.
