---

**Ladies and Gentlemen,**

**After some research, I discovered the Goll House was built in 1898 by the well known architects of Ferry and Clas. They also built the Frederick Pabst Mansion, Milwaukee Public Library and the St. John's Cathedral Tower, all well known and historic structures in Milwaukee known and admired by all. I seriously doubt anyone would take any chance to loose these buildings, especially just to make a profit for an out of town developer.**

**In 2002, the Milwaukee City Council felt that the Goll House should be preserved as the historical structure that it is and protect it for generations of future citizens to admire. The Council voted unanimously to designate the Goll House as a Milwaukee Historic Structure. The current Council members can do no less than to continue this protection and vote NO to the proposed apartment on the site. The council members are the guardians of our city just as parents are to their children. The children of the city need you now!**

**What is needed is a group of citizens or a civic minded group to restore the house to it's original condition as a place to display art such as the Villa Terrace and Louis Allis House. Protect our heritage for future generations.**

**Please Protect Prospect Avenue and our city's heritage; it is in your hands.**

**Regards,  
John M. Bohler**
