Hi Sharon!

Please disregard the graffiti reports, I authorized a group of youths from the area, "St. Anthony's/Kozie etc..." to paint the walls in any design they liked. They spent 3 days working very hard and now instead of being out on the streets creating graffiti they now proudly bring friends & family to view their handy work! No guns or violent depictions were allowed and 2 separate art departments have asked if they would be allowed to bring students to see the display.

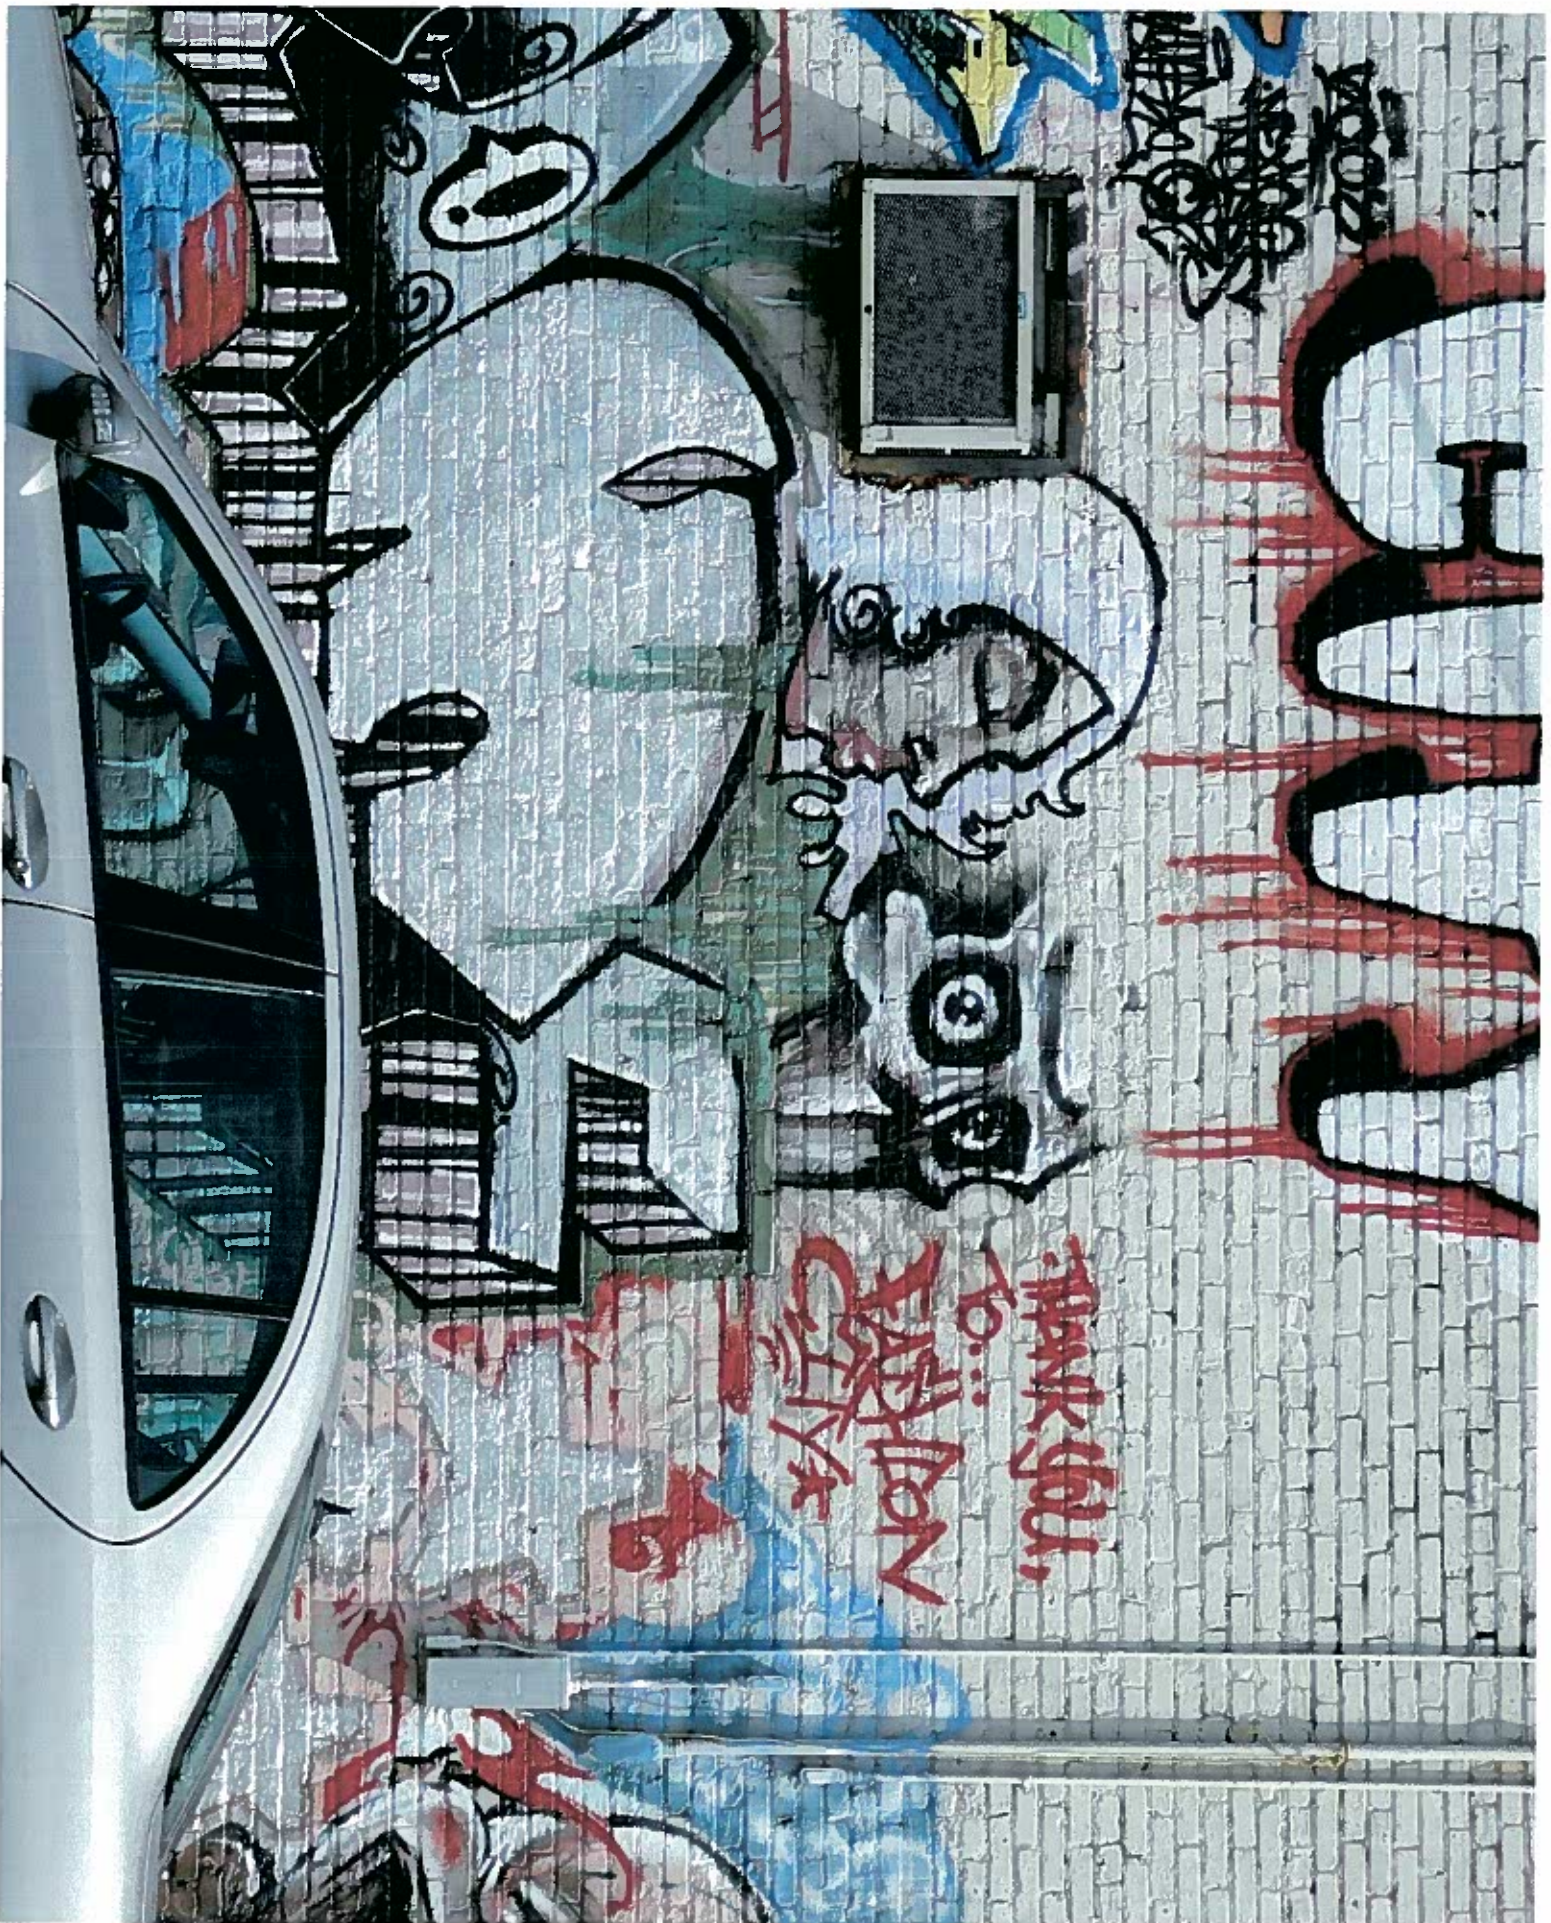

Thanks and please
say hi to Gregg!
