

Eric Biernat

Objective Direct all aspects of Physical Security.

Experience 2006-Present **Medical College of Wisconsin** Wauwatosa, WI
Manager – Physical and Technical Security

- Manage global risk program throughout campus and clinic facilities
- Develop and direct policies and procedures to ensure compliance with appropriate State and Federal agencies governing select agents and radioactive materials
- Establish standards for project management and security vendor and equipment selection
- Direct staff for technical project management
- Designed systems and managed project for new research facility totaling \$1.5 million – keyless facility with 450+ card readers, integration with migrated card access security platform, 200+ CCTV cameras in an integrated DVR network, and addressed biometric compliance needs for BSL III and Transgenic labs.
- Designed and implemented operational emergency response plans campus wide
- Developed 5 year budget global strategic plan based on developed inventory and life cycle of all platform components

2004-2006 **Metavante Corporation** Brown Deer, WI
Security Manager

- Comprehensive management of physical security systems and operations for corporate facilities at 21 locations throughout the US and Canada.
- Audit and risk management / strategic planning / internal investigation
- Staff management / development / team building / contract management / purchasing
- Budget authority for multiple responsibility centers totaling more than six million dollars.

2002-2003 **Milwaukee Art Museum** Milwaukee, WI
Security Manager

- Direction of security staff including: operations, budget, labor negotiations, and contracts.
- Responsible for the safety and security of 100+ million collection of cultural assets, staff, and visitors. Designed emergency response plan, including disaster recovery.
- Designed and implemented operations manual for training purposes.

2001-2002 **Advanced Security** Cudahy, WI
Vice President

- As a partner in this start up security technology provider, I conducted all consulting and audit services for client facilities, systems, and operations.
- Specified and purchased for inventory of electronic security technology.
- Managed business operations and installation staff.

1997-2001

City of Milwaukee

Milwaukee, WI

Security Manager

- Directed security operations for 200+ public facilities using a combination of in-house and contract personnel. Worked in cooperation with local, state and federal law enforcement to investigate incidents and plan emergency response.
- Wrote and commissioned contract for security services for the Public Works and Health Departments and the Milwaukee Federated Library System.
- Designed and implemented emergency procedures plan for City Employees. Served as workplace violence prevention coordinator.
- Managed annual O&M and Capital budget for operations and systems. Planned five year strategic budget to address risk and depreciation of existing equipment. Specified and purchased systems to include card access integrated platforms, CCTV, alarm monitoring, fire / life safety, key hardware, two way radio trunk system, and digital voice recording.
- Managed the City Hall Information Center and switchboard operations (24/7). Coordinated all special events in the City Hall Complex. Communicated with every level of elected and appointed government officials.
