

New Smart Parking Meters

New Parking Meters are currently being deployed
Full replacement of all current 7,000 + metered
spaces, single and multi-space, throughout the
City of Milwaukee
Installation will take 2-3 years

Meter Info

- New meters are POM Parktel 2.0 and called “Smart Meters”
- One unit can meter one or two parking spaces
The picture shows a two space configuration
- Parkers pay at their meter for the space they park at
UNLESS they are paying by MKE Park app - no changes to that
payment method
- Stickers identifying the meter space, also known as the meter number,
will be placed on each meter unit
- Lights at the top of the meter - red = expired; yellow = error
If an error is detected the meter sends a message to the meter technicians automatically
- If one payment method is unavailable example coins jammed - credit card is shown as
payment method and vice versa.

Payment Methods

- Coins - American quarter, dime, nickel
- Credit Cards - Visa, MasterCard, Discover
- App/Tablet/Web - MKE Park, TIME PURCHASED WILL SHOW AS PAID AT THE METER
All other functionalities of the MKE app remain the same
Visit the website for more information – milwaukee.gov/parking

Assistance

- Call center number is on the meter sticker - 286-CITY
- Broken meter reports are entered online by the call center or the parker, which are
automatically sent to our parking meter technicians via email
