Additional Considerations		+ 292.00
Actual Cash Value		<u>\$ 17,177.00</u>
Pre Tax Amount		\$ 17,177.00
Vehicular Sales Tax	___ %	\$ _____
License/fees (if applicable)		\$ _____
Adjusted Vehicle Value		<u>\$ 17,177.00</u>

17,177.00
+ 876.03

\$ 18,053.03
500.00 ded

\$ 17,553.03

The Local Market Value is derived from comparable vehicle(s) available or recently sold in the marketplace at the time of valuation.

Vehicle Valuation Allowances

Compared to the typical vehicle in this local market, your vehicle's value was affected by these factors:

Odometer		87,000	- 2,347.00
Options			
Navigation System	NV	Reported	+ 1,000.00
Remote Starter	RJ	Reported	+ 134.00

These allowances illustrate factors that influence the settlement amount when compared to a typical vehicle. The typical vehicle is a vehicle of the same year, make, and model as the loss vehicle, including average mileage, and all standard and predominant equipment.

In cases where a standard or predominant option is superseded by a replacement or upgrade, a corresponding addition will appear for the option to reflect this.

The vehicle valuation allowances also reflect proper deductions for all standard or predominant equipment not present on the loss vehicle.

These allowances are illustrative only. The actual Local Market Value is calculated entirely from the comparable vehicles contained in this report with adjustments to reflect the loss vehicle configuration.

AUTOCHECK TERMS AND CONDITIONS:

Experian's Reports are compiled from multiple sources. It is not always possible for Experian to obtain complete discrepancy information on all vehicles; therefore, there may be other title brands, odometer readings or discrepancies that apply to a vehicle that are not reflected on that vehicle's Report. Experian searches data from additional sources where possible, but all discrepancies may not be reflected on the Report.

These Reports are based on information supplied to Experian by external sources believed to be reliable, BUT NO RESPONSIBILITY IS ASSUMED BY EXPERIAN OR ITS AGENTS FOR ERRORS, INACCURACIES OR OMISSIONS. THE REPORTS ARE PROVIDED STRICTLY ON AN "AS IS WHERE IS" BASIS, AND EXPERIAN FURTHER EXPRESSLY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE REGARDING THIS REPORT.

YOU AGREE TO INDEMNIFY EXPERIAN FOR ANY CLAIMS OR LOSSES, INCLUDING COSTS, EXPENSES AND ATTORNEYS FEES, INCURRED BY EXPERIAN ARISING DIRECTLY OR INDIRECTLY FROM YOUR IMPROPER OR UNAUTHORIZED USE OF AUTOCHECK VEHICLE HISTORY REPORTS.

Experian shall not be liable for any delay or failure to provide an accurate report if and to the extent which such delay or failure is caused by events beyond the reasonable control of Experian, including, without limitation, "acts of God", terrorism, or public enemies, labor disputes, equipment malfunctions, material or component shortages, supplier failures, embargoes, rationing, acts of local, state or national governments, or public agencies, utility or communication failures or delays, fire, earthquakes, flood, epidemics, riots and strikes.

These terms and the relationship between you and Experian shall be governed by the laws of the State of Illinois (USA) without regard to its conflict of law provisions. You and Experian agree to submit to the personal and exclusive jurisdiction of the courts located within the county of Cook, Illinois.

Local Market Definition

The local market value for your 2005 Toyota Avalon Limited 4 Door Sedan was defined by the ZIP code 53089 – Sussex, WI. If required, the search area may have been expanded for additional information. Details of the specific markets searched follow.

The state of Wisconsin is composed of 7 distinct local markets. The following 7 local markets were used in the preparation of this vehicle market report.

Milwaukee WI - Primary local market vehicle database

In this market, CCC maintains a database of 6,312 inspected dealer vehicles located at 32 dealerships, and 41,082 dealer advertised, and 2,855 privately advertised vehicles taken from 27 local papers or magazines.

Madison WI - Secondary local market vehicle database

In this market, CCC maintains a database of 3,946 inspected dealer vehicles located at 18 dealerships, and 19,371 dealer advertised, and 2,366 privately advertised vehicles taken from 19 local papers or magazines.

La Crosse WI - Third local market vehicle database

In this market, CCC maintains a database of 8,496 dealer advertised, and 885 privately advertised vehicles taken from 13 local papers or magazines.

Milwaukee

Madison

La Crosse

Other markets searched - Stevens Point/Wausau, Greenbay/Appleton, Rhinelander and Eau Claire

In these markets, CCC maintains a database of 5,585 inspected dealer vehicles located at 27 dealerships and 45,873 vehicles taken from 63 local newspapers or magazines.

Search extended to locate additional comparable vehicles.

In certain circumstances, the area searched may be further extended to locate additional comparable vehicles for use in the valuation of your vehicle. That was done in connection with this valuation, and CCC was able to locate comparable vehicles in West Chicago Suburbs, Merrillville, Cedar Rapids, Indianapolis, Kalamazoo/Battle Creek, Rochester, Rockford, South Bend and Champaign/Urbana. Adjustments were made to the value of each comparable vehicle to account for differences, if any, in year, model, body style, engine configuration, packages, options, and mileage.

Nationwide, CCC maintains a database of 651,357 inspected dealer vehicles located at 3,700 dealerships, and 4,848,134 advertised vehicles taken from 1,695 local papers and magazines.

For your vehicle's CCC Valuescope Market Report, CCC identified 10 inspected dealer vehicles and 7 advertised vehicles as comparable to your vehicle, and used their values to determine the Local Market Value.

Vehicles are determined to be comparable to the loss vehicle based on:

- Nearness to the loss vehicle's primary garage location
- Similarity of model, equipment, and odometer
- Precision of the data (inspected versus advertised)

Valuation Methodology

This CCC Valuescope Market Report was prepared for West Bend by CCC Information Services Inc. CCC has been preparing market value reports for the Insurance industry since 1981. CCC physically inspects vehicles for sale at vehicle dealerships in the local markets, and subscribes to local newspapers and automotive publications in these markets. CCC maintains vehicle databases containing these inspected dealership vehicles along with the dealer and private party advertised vehicle information.

When West Bend requests a CCC Valuescope Market Report from CCC, they provide CCC the VIN (Vehicle Identification Number) of the loss vehicle. Decoding this VIN identifies the exact vehicle for which the local market value will be done. See the **VINGuard™ Vehicle Identification** section.

West Bend also provides CCC the vehicle owner's ZIP code. This identifies the local market that will be used to determine the market value. See the **Local Market Definition** section.

Finally, West Bend provides CCC with the configuration of the loss vehicle including equipment, odometer, condition, maintenance, etc. This information is the starting point for determining the local market value.

Using this information, CCC searches its databases to find comparable vehicles in the local market. Vehicles located are compared to the loss vehicle, and adjustments are made for differences such as model, equipment, and odometer. The comparable vehicles are used to determine the local market value. See the **Local Market Definition** section.

After the **Adjusted Value** for the comparable vehicles are calculated (see the **Local Market Comparable Vehicles** section), CCC calculates the **Local Market Value**. This calculation is a weighted average. Using a weighted average allows those vehicles most similar to the loss vehicle to contribute a greater percentage to the **Local Market Value** than less similar vehicles.

Factors that determine similarity are:

- Precision of the data (inspected versus advertised)
- Equivalency of model, equipment, and odometer
- Nearness to the loss vehicle's primary garage location

Using a weighted average results in a more accurate **Local Market Value** as the vehicles most similar and closest to the loss vehicle contribute more to the value than less similar, more distant vehicles.

Comparable vehicles used in the determination of the vehicle value are not intended to be replacement vehicles, but are reflective of the local market value.

Vehicle Condition/Additional Considerations

West Bend uses Condition Inspection Guidelines to determine the condition of key components of the loss vehicle. These guidelines are specific to geographic location, year, and vehicle type. The guidelines describe physical characteristics for each of the vehicle components. Based on these guidelines, West Bend has determined the condition of the vehicle prior to the loss.

West Bend identifies the after factory options and upkeep dollars invested into the loss vehicle. CCC makes dollar adjustments that reflect the impact these items have on the resale value of the vehicle, not the replacement value of these items. Remember that maintenance work done to keep the vehicle in an operable condition may not add to the value of the vehicle, but, rather, retains the value of the vehicle.

Component	Condition	Value Impact	Inspection Notes
<u>Mechanical</u>			
Engine	Clean	\$120	WELL MAINTAINED
Transmission	Clean	\$140	WELL MAINTAINED
Paint	Fair	\$0	TYPICAL WELL
<u>Tires</u>			
Front Tires	Fair	\$0	11/32 TREAD NEW
New Tires	(4 tires)	\$292	(\$700 purchase price)
Rear Tires	Fair	\$0	11/32 TREAD NEW
Body/Glass	Fair	\$0	TYPICAL WEAR
Interior	Fair	\$0	TYPICAL WEAR
Total Adjustments:		\$552	

- The Condition Inspection Guidelines provide information based on vehicle age, vehicle type, and geographic location. Your vehicle has been identified as being located in the Central region as a newer passenger car.
- The Condition Inspection Guidelines, and all dollar adjustments, are determined by surveys, inspections, and interviews with dealerships across the United States.

Local Market Comparable Vehicles Detail

The local market comparable vehicles are compared to the loss vehicle, and adjustments are made for differences in equipment, odometer, model, etc. The Price, Asking Price, Take Price or List Price displayed below (as applicable) may differ from the advertised price where CCC obtains different price information from the seller. The Adjusted Value represents the price of the comparable configured exactly as the loss vehicle.

- List Price is the sticker price of the vehicle.
- Take Price is the amount for which the vehicle can be purchased as defined by the contact at each dealership.
- The baseline is defined as the condition of the typical vehicle on the road. Baseline Adjustments are made when a comparable vehicle's condition varies from that of a typical vehicle.
- All dollar adjustments are determined by surveys, inspections, and interviews with dealerships across the United States.
- Note that some comparable vehicles that were recently available in the local market may no longer be available.
- Option adjustments are made in comparison to the typical vehicle. Typical options that are not present are enclosed in parentheses. Items followed by an asterisk (*) indicate non-typical options that add value to the vehicle.
- The Price, Asking Price, Take Price or List Price displayed above (as applicable) may differ from the advertised price where CCC obtains

different price information from the seller.

Additional Local Market Comparable Vehicles

The following **Inspected Vehicles** and **Local Advertisements** also support the local market value of the loss vehicle, but are displayed in less detail. CCC compares the complete configuration of the comparable vehicle to the loss vehicle to determine the **Adjusted Value**. The **Adjusted Value** represents the price of the comparable configured exactly as the loss vehicle. The Price, Asking Price, Take Price or List Price displayed below (as applicable) may differ from the advertised price where CCC obtains different price information from the seller.

NHTSA Vehicle Recall

The National Highway Traffic Safety Administration has issued 2 safety related recall notices that may apply to the above valued vehicle. For additional information or assistance, call CCC customer service at 1-800-621-8070 and follow the automated operator's instructions. Please use your valuation request number for reference.

NHTSA ID: 06V096000 Issued: / /20 No of vehicles: 133
Air bags on certain Vehicles, due to improper assembly of the air bag inflator, which is used in the side air bag, the curtain shield air bag, and the knee air bag assembly, some inflators were produced with an insufficient amount of the heating agents necessary for proper air bag deployment. In this condition, the expansion force of the gas may be insufficient to properly inflate the air bag when the srs system is activated during a crash. This may increase the risk of injury to the occupant in the involved seating position in the event of a crash. Dealers will replace the specific srs air bag. The recall is expected to begin during April 2006. Owners may contact toyota at 1-888-270-9371, Scion at 1-866-548-1851, or Lexus at 1-800-255-3987.

NHTSA ID: 05V227000 Issued: / /20 No of vehicles: 4,855
Steering:Column on certain passenger Vehicles, the steering yoke was not welded to the steering shaft. If the Vehicle is operated in this condition, there is a possibility that the yoke may come off from the shaft, and could result in a loss of Vehicle steering control. Loss of control of the Vehicle could result in a crash. Dealers will inspect the steering yoke and shaft weld condition, and replace the steering column assembly. The recall is expected to begin during June 2005. Owners should contact toyota at 1-800-331-4331.

Vehicle Appraisal and Valuation Notes

Adjustment amounts are based on a combination of factors including the region of the country, the age of the vehicle, and the type of vehicle. The loss vehicle has been valued in the Central region as a newer passenger car with 36% greater than average mileage of 64,100

Included in our backup are similar models to the loss vehicle. Proper adjustments were made for this valuation.

Your valuation has been prepared in compliance with all local rules and regulations.

Diagram and Narrative

DIAGRAM AND NARRATIVE	105 - PHOTOS BY
	<p>UNIT #1 WAS TRAVELLING N/B ON N. HOPKINS ST APPROACHING W. VILLARD AV. WHEN IT COLLIDED WITH UNIT #2, WHICH WAS TRAVELLING E/B ON W. VILLARD AV. IN THE MIDDLE OF THE INTERSECTION. THE TRAFFIC SIGNALS THAT WERE PRESENT WERE COMPLETELY INOPERATIVE AND TEMPORARY STOP SIGNS THAT HAD BEEN ATTACHED TO THE POLES BELOW THE TRAFFIC SIGNALS WERE LESS THAN SIX FEET FROM THE GROUND AT THEIR TOPS. ALSO, SNOW BANKS MADE THE TEMPORARY STOP SIGNS LESS NOTICABLE. BOTH DRIVERS STATED THAT THEY BELIEVED THE TRAFFIC SIGNALS WERE OPERATING AND STATED THAT IT APPEARED THAT THEY HAD GREEN LIGHTS. WHILE I WAS INVESTIGATING THE ACCIDENT, I OBSERVED CARS TRAVELLING ON BOTH W. VILLARD AV AND N. HOPKINS ST. PROCEED THROUGH THE INTERSECTION IN THE SAME MANNER, FAILING TO NOTICE THE TEMPORARY STOP SIGNS.</p> <p>THE ONLY INJURY REPORTED WAS A MINOR 1/2" LACERATION TO THE FINGER OF THE OPERATOR OF UNIT #2.</p>
