Desc of Loss:	Property Damages

Attn: Risk Manager

We are the insurance carrier for Milwaukee Street Gallery LLC and they have presented a claim for water damages to their property. The City Water Inspector (Kevin) and the landlord met at the property and went into the basement to test the water valve. Prior to the inspection our insured was directed how far to move some of the art work away from the valve being tested. Our insured and the landlord moved the items the recommended the distance so the items would not be damaged during the testing. When the inspector opened the valve the water sprayed further than the distance the insured was given to move the art work and 35 pieces of the art work were damaged by the water. We are placing all parties of this loss and our right of subrogation for any payments made to our insured

If you have coverage for this loss please forward this notice to your insurance agent or carrier and have a claim set up. Please have the handling adjuster contact our office to discuss the details of this claim. We can be contacted via phone, fax or mail at the address located below:
