Dear City Clerk: Attention Claims:

We have made payment to our insured for damages resulting from this accident. Our investigation has established that the above loss was caused by the negligence of your driver. By virtue of our subrogation rights this letter is to advise you that we expect payment from you for the amount of damages within 14 days of the receipt of this letter.

Be advised that no partial payment, which is less than the full amount claimed herein, will be considered in any way an acceptance of benefits, a novation or an accord and satisfaction of this claim without the express written release of our claim executed by an individual who identifies himself/herself as a member of our subrogation department. Therefore, our legal rights to enforce collection on the remaining amount of the claim shall not be waived or estopped due to a partial payment by you.

If you need additional support for our claim or require further information, please call us at 800-907-6950 with your FAX number so that the requested information can be sent to you.

Sincerely,

Vehicle Valuation Summary	
Local Market Value	\$ 10,600.00
Condition	- 450.00
Adjustment for additional considerations	- 340.00
Pre-tax amount	\$ 10,490.00
Vehicle Sales tax	
Licenses/Fees (if applicable)	
Adjusted vehicle valuation amount	\$ 10,490.00
Vehicle Valuation Allowances	

Compared to the typical vehicle in the marketplace your vehicle's value was affected by these factors:

Odometer: 102,573	- 42.00
46 - 6 Speed Transmission	+ 407.00
58 - Heated Seats	+ 150.00
106 - Premium Radio	+ 140.00
26 - Electric Glass Roof	+ 500.00
47 - Automatic Transmission	- 407.00

These allowances illustrate factors that influence the settlement amount when compared to a typical vehicle. The typical vehicle is a vehicle of the same

year, make, and model as the loss vehicle, including average mileage, and all standard and predominant equipment.

In cases where a standard or predominant option is superseded by a replacement or upgrade, a corresponding addition will appear for the option to reflect this.

The vehicle valuation allowances also reflect proper deductions for all standard or predominant equipment not present on the loss vehicle.

These allowances are illustrative only. The actual Local Market Value is calculated entirely from comparable vehicles with adjustments to reflect the loss vehicle configuration.

AutoCheck Vehicle History Report Terms and Conditions:

Experian's Reports are compiled from multiple sources. It is not always possible for Experian to obtain complete discrepancy information on all vehicles; therefore, there may be other title brands, odometer readings or discrepancies that apply to a vehicle that are not reflected on that vehicle's Report. Experian searches data from additional sources where possible, but all discrepancies may not be reflected on the Report.

These Reports are based on information supplied to Experian by external sources believed to be reliable, and no responsibility is assumed by Experian or its agents for errors, inaccuracies or omissions. The Reports are provided strictly on an 'as is where is' basis, and Experian further expressly disclaims all warranties, express or implied, including any implied warranties of merchantability or fitness for a particular purpose regarding this Report.

YOU AGREE TO INDEMNIFY EXPERIAN FOR ANY CLAIMS OR LOSSES, INCLUDING COSTS, EXPENSES AND ATTORNEY'S FEES, INCURRED BY EXPERIAN DURING EXERCISE OF INDUSTRY FROM YOUR IMPROPER OR UNAUTHORIZED USE OF AUTOCHECK VEHICLE HISTORY REPORTS.

Experian shall not be liable for any delay or failure to provide an accurate report if and to the extent which such delay or failure is caused by events beyond the reasonable control of Experian, including, without limitation, 'acts of God', terrorism, or public enemies, labor disputes, equipment malfunctions, material or component shortages, supplier failures, embargoes, rioting, acts of local, state or national governments, or public agencies, utility or communication failures or delays, fire, earthquakes, flood, epidemics, riots and strikes.

These terms and the relationship between you and Experian shall be governed by the laws of the State of Illinois (USA) without regard to its conflict of laws provisions. You and Experian agree to submit to the personal and exclusive jurisdiction of the courts located within the county of Cook, Illinois.

----- Local Market Definition (continued) -----
 Madison, WI - Secondary local market vehicle database.
 In this market, CCC maintains a database of 3,661 inspected dealer vehicles located at 17 dealerships, and 21,518 dealer advertised, and 1,511 privately advertised vehicles taken from 19 local papers or magazines.

Greenbay/Appleton, WI - Third local market vehicle database.
 In this market, CCC maintains a database of 2,998 inspected dealer vehicles located at 15 dealerships, and 24,267 dealer advertised, and 1,777 privately advertised vehicles taken from 19 local papers or magazines.

Other markets searched - Stevens Point/Wausau, Eau Claire and Rhinelander.

In these markets, CCC maintains a database of 1,952 inspected dealer vehicles located at 11 dealerships, and 21,649 advertised vehicles taken from 41 local newspapers or magazines.

Search extended to locate additional comparable vehicles.
 In certain circumstances, the area searched may be further extended to locate additional comparable vehicles for use in the valuation of your vehicle. That was done in connection with this valuation, and CCC was able to locate comparable vehicles in Lansing, Indianapolis and Grand Rapids. Adjustments were made to the value of each comparable vehicle to account for differences, if any, in year, model, body style, engine configuration, packages, options, and mileage.

Nationwide, CCC maintains a database of 618,981 inspected dealer vehicles located at 3,931 dealerships, and 5,205,451 advertised vehicles taken from 1,647 local papers and magazines.
 For your vehicle's CCC Valuescope Market Report, CCC identified 4 advertised vehicles as comparable to your vehicle, and used their values to determine the Local Market Value.

Vehicles are determined to be comparable to the loss vehicle based on:

- * Proximity to the loss vehicle's primary garage location
- * Similarity of model, equipment, and odometer
- * Precision of the data (inspected versus advertised)

Valuation request: 41026334 (continued) 2001 AUDI S4 QUATTRO

----- Valuation Methodology -----
 This CCC Valuescope Market Report was prepared for Farmers Insurance Exchange by CCC Information Services Inc. CCC has been preparing market reports for the insurance industry since 1981. CCC physically inspects vehicles for sale at vehicle dealerships in the local markets, and subscribes to local newspapers and automotive publications in those markets. CCC maintains vehicle databases containing these inspected dealership vehicles along with the dealer and private party advertised vehicle information.

When Farmers Insurance Exchange requests a CCC Valuescope Market Report Exam CCC, they provide CCC the VIN (Vehicle Identification Number) of the loss vehicle. Based on this VIN CCC identifies the exact vehicle for which the local market value will be done. See the VIN and Vehicle Identification section.

Farmers Insurance Exchange also provides CCC the vehicle owner's zip code. This identifies the local market that will be used to determine the market value. See the Local Market Definition section.

Finally, Farmers Insurance Exchange provides CCC with the configuration of the loss vehicle including equipment, odometer, condition, maintenance, etc. This information is the starting point for determining the local market value.

Using this information, CCC searches its databases to find comparable vehicles in the local market. Each vehicle is compared to the loss vehicle, and adjustments are made for differences in model, equipment, and odometer. Those vehicles that are deemed most comparable to the loss vehicle are used to determine the local market value. See the Local Market Definition section.

After the Adjusted Value for each comparable vehicle is calculated (see the Local Market Comparable Vehicles section), CCC calculates the Local Market Value. This calculation is a weighted average. Using a weighted average allows those vehicles most similar to the loss vehicle to contribute a greater percentage to the Local Market Value than less similar vehicles. Factors that determine similarity are:

- * Nearness to the loss vehicle's primary garage location
- * Equivalency of model, equipment, and odometer
- * Precision of the data (inspected versus advertised)

Using a weighted average results in more accurate local market value as the vehicles most similar and closest to the loss vehicle contribute more to the market value than less similar, more distant vehicles.

Vehicle Condition/Considerations

Farmers Insurance Exchange uses Condition Inspection Guidelines to determine the condition of key components of the loss vehicle. These guidelines are specific to geographic location, year, and vehicle type. The guidelines describe physical characteristics for each of the vehicle components. Based on these guidelines, Farmers Insurance Exchange determined the condition of the vehicle prior to the loss.

Farmers Insurance Exchange identifies the after factory options and upkeep dollars invested into the loss vehicle. CCC makes dollar adjustments that reflect the impact these items have on the resale value of the vehicle, not the replacement value of these items. Remember that maintenance work done to keep the vehicle in an operable condition may not add to the value of the vehicle, but, rather, retains the value of the vehicle.

* List Price is the sticker price of the vehicle. Sale Price is the amount for which the vehicle can be purchased as defined by the contract at each dealer.

* Option adjustments are made in comparison to the typical vehicle. Typical vehicle options that are not present are included in parentheses.

* The baseline is defined as the condition of the typical vehicle on the road. Baseline adjustments are made when a comparable vehicle condition varies from that of a typical vehicle.

- * All dollar adjustments are determined by surveys, inspections, and interviews with dealerships across the United States.
- * Note that some comparable vehicles that were recently available in the local market may no longer be available.
- * The Price, Asking Price, Take Price or List Price displayed above (as applicable) may differ from the advertised price where CCC obtains different price information from the seller.

===== Vehicle History =====
 The A4 is Audi's entry level, near-luxury sedan, and for 2001, it receives a host of additional safety equipment and a longer warranty. The A4 is a sleek, speedy, and sophisticated automobile, and it has garnered much praise from the automobile press. The Audi A4 is offered in sedan form in either front-wheel drive or all-wheel drive, and in wagon form in all-wheel drive only. The performance oriented version, called the S4, is now produced in either sedan or wagon form, and is only available with all-wheel drive.

Valuation request: 41026334 (continued) 2001 AUDI S4 QUATTRO

===== Vehicle History (continued) =====
 Power on the 1.8T models comes from a 4-cylinder, 1.8-liter, turbocharged, 150-horsepower engine, while power on the 2.8 models comes from a 4-cylinder 2.8-liter, 190-horsepower, fuel-injected engine. The S4 gets its power from a 6-cylinder, 2.7-liter, twin-turbocharged, 250-horsepower engine. The A4 is not overly quick, even with the 2.8 V-6, but it performs well with the manual transmission. Frontion and grip are excellent, especially with the all-wheel drive. All models offer high levels of luxury and comfort. The A4 competes well against the Acura Integra, BMW 3-Series, Infiniti Q20, and the Mercedes-Benz C-Class with its reasonable pricing, high levels of refinement, excellent finish, quality of materials, and good performance levels, especially the S4 model with its blinding acceleration.

===== Appraisal and Valuation Notes =====
 The loss vehicle has been valued as an older vehicle in the Central region with average miles of 102,200.

Included in our backup are similar models to the loss vehicle. Proper adjustments were made for this valuation. Backup vehicles may be one year newer than the loss vehicle. Proper adjustments were made to reflect model, year and mileage differences for this valuation.
