Re: C.I. File No. 1029-2018-2191

I wish to appeal the decision of your letter dated November 15, 2018. I am requesting a hearing in this matter. The reconstruction of the roadway project on Greenfield Avenue, according to Wi Dept of Transportation was a City of Milwaukee Project, with 80% federal funding(grant). There was no state funding. The Wi Dept of Transportation just did an oversight, this was a Local program project.

Milwaukee had some heavy rains on the 4th of July 2018, West Greenfield Ave was and still is in the midst of construction. With the heavy rains there was a backup through the sewer line. The basement of my building at 2610 W Greenfield Ave, Milwaukee WI had a backup of water and sewer over 19 inches deep. The backup was so bad there was sewer, mud, oil and a horrible smell all over the basement. It was so deep it was higher than the blower motors and inside gas valves. I have had to replace both the hot water heater and furnace for that location. I have also had to hire a cleaner to clean and sterilize the basement. I have included receipts for the replacement and cleanup due to this backup.
