Tim,

I reviewed your report on our application and understand the conditions regarding elastomeric paint and masonry. Both of our contractors (O'Brien Painting and Holton Brothers for masonry) have worked in the neighborhood so I don't believe they will have any issues with the conditions. Given that, do I need to be present at the meeting this afternoon?

Thanks.

Tim,

Attached is the Marvin brochure from which I captured the storm/screen image (page 19 in the brochure) in our application. Note that the caption to the picture we provided indicates that the product comes in either wood or aluminum clad. Also attached is our order with Lisbon that indicates wood.

The leaded tape will be the same materials and application process as the kitchen window that was approved. Here is a close-up photo. It really is high quality work.

Please let me know if you need additional information.

Thanks.

You will be scheduled for March 4. The only issue is the leaded tape and the photograph provided for the storm windows. If the storm windows truly have a wood exterior, they will be fine. My understanding is that the only storm window line Marvin makes that we accept is the Alpine line, but they may have new products of which I'm not aware. Please try to provide a brochure for the products.

Please see attached and let me know if you have any questions.

I would appreciate it if you would confirm receipt and let me know when the application will go before the commission.

Thank you.
