FPC Speech

Good evening ladies and gentlemen of the Fire and Police Commission, presiding Chiefs, and others in attendance. My name is Quinn WHEELER and I have been given the opportunity to represent the Police Aides who are eligible to be promoted to the rank of Police Officer.

I would like to start by thanking the members of the Fire and Police Commission, Milwaukee Police Department, and the citizens of the City of Milwaukee for allowing us the opportunity to serve our community as Police Aides. This program has allowed us insight into the various responsibilities that come with working in law enforcement. Over the past three years my fellow Police Aides and I have developed various skills necessary to be effective in our future endeavor which is becoming a Milwaukee Police Officer.

As Police Aides, we have all worked at different locations, each one having different responsibilities. These locations vary from working at a district to working in the District Attorney's office. Each location teaching us new aspects of Law Enforcement. We have also been given the opportunity to participate in different training exercises, ride alongs, and special events such as directing traffic for marathons and fireworks. Each work location, training exercise, and special event has taught us something new and developed our knowledge and skills.

During the Police Aide program, while working full time, we were required to further our education and maintain our grades by going to college. We also regularly attended the Police Academy for training where we participated in physical fitness exercises, discussed and received training in topics such as communication, active listening, mental health awareness, healthy living, ethics, how to respond in different emergencies, and many more. This made us physically and mentally stronger and gave us the skills needed to effectively communicate with the community and provide the best service possible.

The training and experience that we have received has helped develop us into the young adults that we are today. We are now ready to advance in our careers and begin the next step by becoming Milwaukee Police Officers and continuing to serve the people of Milwaukee. We take this responsibility very seriously and strive to provide the best service possible by continuing to develop our knowledge and skills and upholding the core values of the Milwaukee Police Department. Without you none of this would be possible. Thank you.
