--	---

**All of the Office 365 plans above include:**

Guaranteed 99.9% uptime and a financially backed service level agreement.

IT-level web support and 24/7 phone support for critical issues.

Active Directory integration to easily manage user credentials and permissions.

World-class data security.

1. For subscriptions that do not include the fully installed Office applications: Users can connect the following versions of Outlook to their business-class email so they can use the rich client application they already know: the latest version of Outlook, Outlook 2013, and Outlook 2011 for Mac. Previous versions of Outlook, such as Outlook 2010 and Outlook 2007, may work with Office 365 with reduced functionality. This compatibility with Outlook does not include the Exchange Online Kiosk or Office 365 F1 plans.
2. The Skype for Business app included with Office 365 U.S. Government G1 does not include PSTN capabilities available in the version included with Office 365 U.S. Government G3 and G5. Skype for Business is not yet available for Mac. Lync for Mac 2011 is the latest version. Lync for Mac is compatible with Skype for Business Server and Skype for Business Online.
3. Publisher and Access: Windows PC client program and/or features only; cannot be used across devices. Most plans that do not include the desktop version of Office work with the latest version of Office, Office 2013, and Office 2011 for Mac. Previous versions of Office, such as Office 2010 and Office 2007, may work with Office 365 with reduced functionality. This compatibility with Office does not include the Exchange Online Kiosk or Office 365 F1 plans.
4. Unlimited personal cloud storage for qualifying plans for subscriptions of five or more users, otherwise 1 TB/user. Microsoft will initially provide 1 TB/user of OneDrive for Business storage, which admins can increase to 5 TB/user. Request additional storage by contacting Microsoft support. Storage up to 25 TB/user is provisioned in OneDrive for Business. Beyond 25 TB, storage is provisioned as 25 TB SharePoint team sites to individual users.
5. For subscriptions that do not include the fully installed Office applications: Users can connect the following versions of Outlook to their business-class email, so they can use the rich client application they already know: the latest version of Outlook, Outlook 2013, and Outlook 2011 for Mac. Previous versions of Outlook, such as Outlook 2010 and Outlook 2007, may work with Office 365 with reduced functionality. This compatibility with Outlook does not include the Exchange Online Kiosk or Office 365 F1 plans.
