

My name is Doris Messner and I'm soon to be 79 years old I was born in Milwaukee went to school in Milwaukee & worked in Milwaukee I will probably die in Milwaukee. My brother & sister all moved out not me I stayed now I'm wondering if that was a wise choice.

My husband is disabled and I take care of him 24/7 its not easy but I do it and I dont mind taking care of him. I have enough to worry about so I don't need this to worry about. Thank god I have good neighbors Bruce & Kim & Jeff and Barb who are always there to help me. We all get along in our neighborhood and I love living here but if you let Western get its way I know it will never be the same

I do not believe for one minute that the trucks will all the noise will stay off the frontage road. I'm not stupid I may be old but I plan on staying around for awhile so my voice should be heard.

I know the city wants the warehouse for jobs what a joke the people that work there now

cont

will follow these jobs what are we talking 200 jobs new ones in the next 10 years.

We should have a voice & the people we elected should hear our voices, but they don't and you know that's true. It seems

like the people who live in Milwaukee have no rights its all about what they can get out of it not the people who payed taxes and stayed in the city. I know the city wants this but let me ask you this, would you want a giant warehouse on your block so you could listen to trucks all day long. I think you would fight like crazy to try & stop it and that's true too.

Our property will be hard to sell if we wanted to leave. I know I would not buy a house with a giant warehouse was on the road either would you. So please be a voice for us I would for you if I was to make a decision

Thank you
