RE: City File #190159 – Rezoning at 7007 and 7007-R North 115th Street

Dear Mr. Marcoux,

Milwaukee County Parks is in receipt of the City's rezoning notice for the above-referenced property, and would recommend the use of bird-friendly glass for this proposal. As you are aware, this was recently successfully installed at Fiserv Forum, to the benefit of wildlife in the area. The Menomonee River Parkway is a major bird migration corridor in the County and there could be significant bird mortality impacts from window strikes with the proposed facility. We would also encourage attempts to reduce light pollution at night, as light cast into the adjacent natural area would have significant impacts to wildlife diversity.

Parks was contacted in April 2019 about extending sanitary sewer through parkland to serve the 7007 parcel. Such a request requires review and approval through our Land Utilization process. (<https://county.milwaukee.gov/EN/Parks/Make-a-Difference/CommunityProjects>) To date, we have no such submittal.

Respectfully,

Sarah Toomsen
