Subject: A farewell message from PATHWAYS guy Robert C Robison @ Lapham Park

Dear Mr. Perez,

It was so nice to see you again at the recent Unsung Heroes event, and a pleasure meeting Amy Hall. What a wonderfully successful day that was!

As I mentioned, next week (June 30), I will be leaving Wisconsin -- after 25 years - to return to where I was born and raised, and home to my family... Nashville, Tennessee.

I could not leave without letting you know how much I have enjoyed my "HACM experience," and particularly, working with you and your exceptional team on projects and initiatives dear to my heart. I strongly believe that communication creates awareness and opportunities that promote involvement in the community.

The progressive culture you have created at HACM allows ideas like *Pathways* to become reality. As I recall, we first met at a resident meeting regarding complaints about heating. You had read in *Pathways*, my remark about this being a meeting about heat – not a heated meeting. I was quite honored that you had perused that very first edition of what became a 6-year labor of love. It also demonstrated your interest in being connected to the daily lives and activities of the residential communities served by HACM.

Tracie Patterson in Community Services was instrumental in all 78 issues getting printed – sometimes working with me into the evening to meet a deadline. I always depended on her to proof and critique each issue and often collaborated in promoting events and activities at Lapham Park and other highrises in the city. *Your* contribution was always providing me with a great photo-op at community events you attended (see below). Your enthusiasm is contagious!

Thank-you for the encouragement and opportunities you provided over the years, and I wish you continued success in your vital mission of providing quality housing while nurturing innovative plans for a brighter future.

Respectfully,

Robert C Robison

414-429-5597 (should you pass through the Nashville area).
