**Subject:** Re: Mitchell Street

We reroof as we tear off so the building remains as watertight or more watertight than it is right now. We start on the north end(highest part of the slope) and work our way toward the south( gutter edge).  
Thanks, mark d.

Can we come up with a description of how we will winterize over the winter?

Sincerely,  
Andy Braatz

I need some sort of description of how you're going to keep the affected areas and the roof weathertight over the winter and then I'm ready to approve you for emergency work.
