6/22/12

PLEASE NOTE:

AND SIGNED.

## 5. DESCRIPTION OF PROJECT:

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached via email.

We are replacing the existing rotten lumber boards, posts and steps on our porch.

The size of the new boards will be the same as the existing boards (see photos 1 and 2). The new boards will be painted the same color as the old boards.

We will be replacing the existing posts with new posts. We are keeping the same number of posts as was previously on the house. The new posts will be the same size as the old posts and will be in the same location as the old posts.

We are also replacing the existing rotten steps with new steps. The new steps will be the same size lumber and will be painted in the same color as the old steps.

The only change will be to the railing. There are currently three different types of railings installed by the previous owners. A painted metal railing (photo 3), a rounded metal railing (photo 4), and a wooden spindle railing (photo 5). None of these railings are original to the house and even the wooden spindle railing was installed withing the last fifteen years.

We intend to install new wooden spindles that will last longer and appear to be more appropriate to the time (photo 6).
