

Finance and Funding Notes

A. Findings

First level bullet points were changed into paragraphs – the larger lists remained bulleted (changed to numbers when the first level of bullet points were removed).

Milwaukee County Sustainability Initiatives was removed for the time being – if someone can send me this information I can put it back into the section.

B. Recommendations for the Plan and Planning Process

The first two original bullet points were made into paragraphs. There were then 3 bullet points that followed up on what a budget analysis should include – the bullet points remained intact. The final two bullet points were then changed into paragraphs.

C. Short Term Projects/Programs

It made sense to leave this section as a list; however, an introductory sentence was added.
