The Honorable  
Finance and Personnel Committee  
Common Council  
City of Milwaukee

*Common Council File No. 200081 - "Communication from the Department of Employee Relations amending the Salary Ordinance relative changes in the Salary Ordinance for Police Department Emergency Communication and Fire Department Dispatch titles."*

Dear Committee Members:

This communication recommends changes and clarifications to the pay ranges for Emergency Communication and Fire Dispatch titles. Recommended changes are listed below by title. In overview, these changes:

- Remove reference to career ladders and pay progression as these have been place on hold
  - Clarify intended pay changes for an employee during and at the conclusion of probation
  - Clarify minimum recruitment rates, and
  - Clarify special assignment pay rates and the required credentials associated with each.
1. Emergency Communications Operator and Fire Dispatcher – PR 5IN
    - As the pay range is the same for both Emergency Communications Operator and Fire Dispatcher, the separate pay rate footnotes have been combined.
    - The July 12<sup>th</sup>, 2018 report regarding Emergency Communications Operator and Fire Dispatcher created one pay range for both titles. The report recommended incremental pay movement during and following probation to ensure that a fully trained employee would receive a rate of pay competitive with those in surrounding communities. The recommended language change clarifies that intent. Without this clarification, employees hired since July 2018 receive a rate of pay lower than the 2018 report recommendations. Recommendations reflect the intended pay range and removes pay progression increments as they have been placed on hold
  2. Fire Dispatcher – Lead Worker Assignment – PR 5IN
    - The recommendation retains the related pay range, removes pay progression increments and recommends instead a 5% incentive for performing a Lead Worker assignment.
  3. Emergency Communications Operator – Peer Training Assignment – PR 5IN
    - The recommendation retains the related pay range, removes pay progression increments and recommends instead a 5% incentive for performing a Peer Training assignment.
  4. Emergency Communications Operator – Lead Worker Assignment – PR 5IN
    - The recommendation retains the related pay range, removes pay progression increments and recommends instead a 7% incentive for performing a Peer Training assignment. For context, the level and scope of responsibility for an ECO Lead Worker Assignment is comparable to that of the professional level Fire Dispatcher-Senior in Pay Range 2FN.

5. Emergency Communications Operator - Telecommunication Duties – PR 5IN
  - The recommendation retains the related pay range and removes pay progression increments.
6. Emergency Communications Operator - Telecommunication Duties/Peer Training – PR 5IN
  - The recommendation removes pay progression increments and recommends instead a 5% incentive in the related pay range.
7. Emergency Communications Operator - Telecommunication Duties/Intermittent Peer Training/Dispatch – PR 5IN
  - The recommendation clarifies a 5% incentive but at least the minimum rate.
8. Fire Dispatcher-Senior PR 2FN
  - The recommendation retains the pay range and removes pay progression increments.

**Action Required – Effective Pay Period 15, 2018 (July 15, 2018)**

In the Salary Ordinance, make the following changes for the following titles:

**Background**

The Emergency Communications Operators (ECOs) in the Police Department and the Fire Dispatchers in the Fire Department are a critical component of the City of Milwaukee’s emergency response team. These positions are generally the first contact that victims of an emergency event have with the Police and Fire Departments. The Fire and Police Commission has made the decision to conduct a combined recruitment of Police and Fire Department 9-1-1 operators in 2018. This decision has been made based upon a number of factors including similarity in minimum experience and competencies at time of hire; efficient use of Fire and Police Commission and Police and Fire Department staff time and resources; and efficient use of applicant’s time.

As a result of this decision, La Keisha Butler, Fire and Police Commission Executive Director, has requested that Employee Relations conduct a study to align the minimum rates of pay for ECOs and Fire Dispatchers. In preparation for the report, staff met with representatives from the Fire Department, Police Department, Fire & Police Commission and Budget Office.

The most recent job evaluation reports for both Fire Dispatchers and the Emergency Communication Operators (ECOs) established career ladder pay progression. Career ladder pay progression is based on the combination of

performance reviews, call quality assessments, and the completion of training programs that further a 9-1-1 operator's knowledge, skills, and abilities. In addition, these latest reports recommended adjustments to the pay ranges for each of the titles based on competitive market rates of pay and for assumption of higher level duties, such as training and lead worker responsibilities.

This report recommends aligning the minimum rates of pay for Emergency Communication Operator and Fire Dispatcher positions while maintaining previous pay range and pay progression recommendations.

### Police Department – ECO Testing and Training

After the creation of the ECO title in the Milwaukee Police Department (MPD), the Fire and Police Commission (FPC) recruited, tested, and created a new eligible list for the ECO positions. New employees have been hired as an ECO I at the rate of \$40,500 annually. During the first year of employment, an ECO I is trained to perform both the initial MPD call-taking and dispatching functions. In order to pass probation at the end of this first year of employment, an ECO I must satisfactorily pass an on-the-job performance evaluation that encompasses both functions. An ECO I that successfully completes probation is then promoted to the title of ECO II with a starting rate of \$46,347. An ECO II may then advance through the ECO II pay range by meeting the criteria of the career ladder steps.

Prior to the creation of the ECO titles in the Police Department, the Fire and Police Commission conducted separate open competitive exams for candidates to perform either the MPD call-taking (Police Telecommunicator) or the dispatching (Police Dispatcher) responsibilities. MPD dispatchers were in a higher pay range than MPD call-takers. Because new employees were hired from separate eligible lists call-takers interested in dispatching were required to take a competitive examination for dispatching in order to be appointed to that title. In this previous paradigm:

- An MPD call-taker learned how to perform call-taking functions during the probationary year. Thereafter, an employee could advance through the call-taking pay range annually.
- An MPD dispatcher was paid in a higher level pay range during the probationary training year in which they learned how to perform both call-taking and dispatching functions. Thereafter, an employee could advance through the dispatching pay range annually.

### Fire Department – Fire Dispatcher Training

Currently in the Milwaukee Fire Department, the hiring rate for a new Fire Dispatcher is \$46,347 annually. During the first year of employment, a Fire Dispatcher is trained to perform call-taking functions when answering calls transferred from an ECO, as well as the MFD medical dispatch function. In order to pass probation at the end of this first year of employment, a Fire Dispatcher must satisfactorily pass an on-the-job performance evaluation that encompasses both functions. A Fire Dispatcher that successfully passes probation may then advance through the Fire Dispatcher pay range by meeting the criteria of the career ladder steps.

The previous Fire Dispatcher training was very similar to the current approach. During the probationary training year, a new employee learned how to perform both MFD call-taking and dispatching functions. Thereafter, an employee could advance through the pay range annually.

### **Cost of Labor Comparisons**

In reviewing the cost of labor for these positions, staff reviewed the rates of pay for similar positions in surrounding communities. The following chart depicts related cost of labor data in southeastern Wisconsin.

Municipality	Effective	Minimum	Maximum
City of Waukesha	January, 2016	\$51,334	\$58,760
City of Wauwatosa	January, 2016	\$43,326	\$58,056
Waukesha County	July, 2018	\$44,928	\$57,054
<b>City of Milwaukee ECO II</b>	<b>January, 2018</b>	<b>\$46,347</b>	<b>\$57,001</b>
<b>City of Milwaukee Fire Dispatcher</b>	<b>January, 2018</b>	<b>\$46,347</b>	<b>\$57,001</b>
Dane County	November, 2014	\$46,613	\$51,210
<b>City of Milwaukee ECO I</b>	<b>January, 2018</b>	<b>\$40,501</b>	<b>\$47,608</b>
City of Muskego	November, 2014	\$37,232	\$46,592
Kenosha - Joint Services	November, 2014	\$36,816	\$46,120
City of West Allis	January, 2016	\$39,978	\$42,744
Milwaukee County	January, 2016	\$37,357	\$41,995

The Fire and Police Commission has made the decision to conduct a combined recruitment of Police and Fire Department 9-1-1 operators in 2018; and the intent of this report is to recommend a minimum rate that will be the same for a combined title of Police ECO (that are now responsible for both call-taking and dispatching) and Fire Dispatcher.

In considering these market rates of pay, it is also important to take into consideration the volume and complexity of work performed by Milwaukee 9-1-1 operators as compared to other jurisdictions in the Milwaukee metro area. In 2016, the Milwaukee Police Department (MPD) received over 1,000,000 calls of which approximately 600,000 represented 911 calls. This number includes the approximately 155,000 calls that MPD transferred to the Milwaukee Fire Dispatchers. Milwaukee Fire Dispatchers then dispatched department resources to over 93,000 fire and Emergency Medical Service (EMS) incidents, and an additional 77,000 dispatches to private ambulance companies. As part of the department's Shared Services Initiative (in which the MFD works in cooperation with suburban counterparts), MFD responded to 922 out-of-city incidents and requested out-of-city resources on 2,887 calls.

For comparison, in 2014 the Waukesha County Communications Center answered 164,000 phone calls and entered 257,861 calls of service for 23 different municipalities Police and Fire/EMS as well as calls for service for the Waukesha County Sheriff's Department, Police Departments and Fire/EMS Departments.

With this comparison of volume and complexity in mind, the most comparable rates to consider are those paid to operators with the City of Waukesha, City of Wauwatosa, Waukesha County and Dane County.

**Recommendation**

Taking into consideration the cost of labor for 9-1-1 operators in the Milwaukee metro area, this report recommends a hiring rate of \$43,326 for both the ECO and Fire Dispatcher titles. Further, an employee who receives a satisfactory performance assessment at the 6-month point of the probationary period would advance to the rate of \$46,347. Following completion of the probationary period, a 9-1-1 operator would then have the ability to advance through the pay range upon meeting the criteria of the career ladder steps. It is also the intention of the Police and Fire Departments to change the probationary periods for ECO and Fire Dispatcher from one year to 18 months to allow incumbents ample time to learn and demonstrate proficiency.

To accomplish this recommendation, the titles of ECO I and ECO II would be combined into one ECO title. The recommended pay ranges for ECOs and Fire Dispatchers would change as follows:

PR 5IN	Emergency Communications Operator – Call Taking and Dispatch Responsibilities							Training Assignments	
	1	2 (6 mos.)	3	4	5	6	7	1	2
<i>Step</i>									
<i>Hourly</i>	20.83	22.28	23.22	24.21	25.23	26.29	27.40	28.23	29.07
<i>Biweekly</i>	1,666.38	1,782.59	1,857.90	1,936.40	2,018.21	2,103.48	2,192.36	2,258.13	2,325.87
<i>Annual</i>	43,325.88	46,347.34	48,305.40	50,346.40	52,473.46	54,690.48	57,001.36	58,711.38	60,472.62

PR 5IN	Fire Dispatcher						Lead Assignments	
	1	2 (6 mos.)	3	4	5	6	1	2
<i>Step</i>								
<i>Hourly</i>	20.83	22.28	23.47	24.71	26.02	27.40	28.23	29.07
<i>Biweekly</i>	1,666.38	1,782.59	1,877.25	1,976.93	2,081.90	2,192.36	2,258.13	2,325.88
<i>Annual</i>	43,325.88	46,347.34	48,808.38	51,400.11	54,129.45	57,001.36	58,711.42	60,472.77

This recommended minimum rate of pay impacts current ECO I incumbents who are on probation. With the implementation of this report, any ECO who has served at least six months as an ECO I and who has performed satisfactorily would be paid \$46,347. An ECO I who has been on probation for less than six months would be paid \$43,326.

Another consideration is rates of pay for Police Department ECO I incumbents who historically have performed only call-taking functions. There are 36 employees who either do not wish to pursue dispatching responsibilities or have not been successful in taking on dispatch responsibilities. To address this situation, this report recommends a footnote that allows these employees to remain within their current pay ranges with career ladder pay progression. No future employees would be added to this provision.
