Subject: Additional comments and input on budget

For clarity, I was unable to also further comment and clarify my position. Yes, divest from and defund law enforcement, and some of those dollars should go to non police efforts for violence prevention and interruption. However, that doesn't NOT mean solely or specifically the Office of Violence Prevention, although I agree more dollars should go to our health dept and to their office via that investment, but groups such as mine (Community Task Force MKE aka Com Force MKE), and other local and grassroots efforts should get funding opportunities to help maintain safety in our own communities and neighborhoods.
