To whom it may concern:

Regarding the incident involving my neighbor Eric Hinshaw's garage door on November 20 2019.

I hereby state that what I say is true and am willing to testify under oath in court if need be.

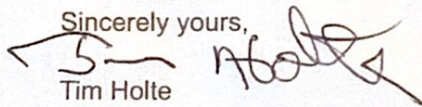

I was in my backyard which is next door to Eric Hinshaw's house when I heard machinery in the alley. I was curious to see what the noise was and observed a City of Milwaukee bob cat like loader picking up chunks of wood Eric had piled in front of his garage door and adjacent to the garage door. Satisfying my curiosity I went back to my yard to do some work. Shortly there after I heard a big bang in the alley like something smashed into something like a garage door. I am familiar with the sound because I have backed into my similar garage door with my car. I again went out to the alley and saw the City of Milwaukee bob cat like loader loading some of the wood in their truck and I also saw a big dent in Eric's garage door. I did not see the bob cat like loader actually hit the door but I sure heard it. The city workers on the scene did not say anything nor admit they hit the door.

I have lived in the city for 45 years, am a Marine Vietnam Veteran and have lived in my house for 35 years.

Feel free to call me at 414-379-6490 or email me at holte.tim9@gmail.com

Sincerely yours,

Tim Holte

A handwritten signature in black ink, appearing to read 'Tim Holte', is written over the printed name. The signature is stylized and includes a large, sweeping flourish that extends to the left and underlines the name.
