**Date:** Wednesday, May 19, 2021 12:44:26 PM

---

I am writing this email regarding one of Milwaukee's Finest FireFighters. I cannot attend this important meeting tomorrow evening. I hope this is received prior to the meeting and wish the very best for Acting Chief Lipski.

When I arrived in Milwaukee five years ago to open the new 833 East Michigan high-rise building, I was fortunate to have met Aaron Lipsky. His demeanor and exquisite mannerism made me extremely proud of our fire department leadership. Over the period of our first year, Aaron assisted me in numerous tasks of understanding fire systems and safety. He conducted a dozen training sessions for our 25 tenants and trained our management staff as well. His dedication to his job is a testimony to his commitment to the people of Milwaukee. Everytime I needed his assistance, he would contact me or have someone within the department call me back with the answer.

I have opened numerous buildings all across the United States States and have rarely seen the likes of what Aaron Lipsky represents as a city government employee. I am proud of his accomplishments and his dedication to our city and the Fire Department.

We at 833 East Michigan represent over 1200 people that rely on our Fire Department each and everyday. Since Acting Chief Lipsky started his new role, I knew our building was in the best hands, due to his leadership and the expectations of his team of firefighters. I have never met another officer in any Fire Department across this country that has more integrity than Aaron Lipsky. I have been doing this job for over 30 years.

I hope and pray that your committee has truly gotten to know this man and what he represents to so many business owners and ordinary people like myself.

PLEASE make us proud of our leadership on the Fire and Police Commission. Politics have no place in our police and fire departments decisions.

Thank you for your time.
