Alderman Bohl, I was wondering if you have scheduled this matter yet or if you plan on scheduling it in the near future? My clients have reviewed the proposed legislation and still would like to work with Legs Staff to address their concerns.

We have had no contact with Legs Staff since 2007 and are not sure how they came up with this proposed language. Furthermore, we believe that since the junk-dealer car registration went into effect it has addressed all of the problems that were initially raised in 2007.

Thank you, Mike

Mike:

On October 9, 2007, you appeared before the committee regarding a junk collector ordinance. It was held so the "city could work with the industry". The ordinance is attached. We would like to move forward on it, so if you could please reiterate your concerns regarding the legislation it would be appreciated. Absent the information we will be moving forward with scheduling the ordinance as currently written.

Thank you.
