### Proposal

Front windows facing west.

Restore zinc inserts to sound structural condition, as when they were fabricated. Set them within original wood frames which will function as an opening and closing windows system.

2200.00

### Wood frames

Restore wood frames to a structurally condition, to hold zinc inserts and function as an opening and closing system.

400.00

Re-hang the 4 front windows. set windows in openings with latches, to lock for security.

400.00

Being uncertain as to who will remove the existing paintings of glass with the overlays and how the wood frames will be very hung on the metal clad openings oh, it is difficult to price I would ask for a range of 4 to \$600, as conditions dictate.

Estimated Total. \$3400.00

The estimated date of commencement is November 2021
