# Client Name:

## DIRECTIONS

#### Window Number

Use number associated with window in diagram provided.

## Window Style

- **Combination** A two lite window designed to be paired with a double hung. This has a fixed upper storm, an operable lower storm and removable screen. The meeting rail is set at the same check rail location of double hung sashes.
- **Insert** An option generally used for casement windows but may be used with double hung windows. This option has aluminum storm and screen inserts that are easily swapped out with the seasons.
- Fixed Wood storm or screen window. This is often but not always made for custom shaped windows like arch tops.

### <u>Color</u>

- **Paint** Please write "*match*" if you would like to match the existing color or please write down the paint color code if you have it along with *Paint sheen* in the box provided.
- Track We provide two options for track color, "White" or "Bronze". Please fill in which color you want.
- Hanging Hardware We provide two options for hardware to hang your windows. Either galvanized hangers with turn buttons or brass screws and washers. Please provide your preference.

#### - Paint Sheen:

Window Number	WINDOW STYLE				COLOR
