Item: 1. 210894 Substitute resolution relating to the appropriation of the remainder of the first tranche of American Rescue Plan Act funds.

eComment: I write in support of ARPA proposal #56 (Johnson), which would help continue the evidence-based service to Milwaukee families known as Positive Parenting Program (Triple P). During this COVID-19 Pandemic, it is more important than ever to provide accessible, services to the children and families of our Milwaukee community. Triple P's curriculum is designed to equip children with all of these skills by providing parents with simple and practical strategies to help build strong, healthy relationships, and confidently manage their children's behavior. In doing so parents build protective factors that, when made available to an entire community, make it less likely that that community will experience violence. Triple P offers an virtual option, Triple P Online, that would be accessible 24/7 to parents and caregivers to learn and practice new parenting skills at their own pace. This web-based version of the program reaches families unable to access in-person services due to the pandemic. Triple P Online has comparable

outcomes to face-to-face delivery but is designed for parents to progress through the sessions in their own time on their home computer, smartphone, or tablet.
