1. Roll call and approval of the minutes of the Feb. 22nd meeting.

Erick, Mariela, Steve, Pam, Nathan, Ginny, Mike Borovik, Scott Blankman

- Minutes review: Approved (2/22/21)
- Google Drive for working group sharing
- o Erick share link: <http://bit.ly/CCTFCEE>
- Susan Bence Joined meeting 10:37 AM
- Mike Borovik starts presenting DRER Review
- Jed Winkler joined meeting 10:41 AM

2. Review Pathways to 100 document

3. Compare We Energies green tariff to MGE Green Tariff

- *Mike Borovik Presentation continued*
- o *Career background*
- o *DRER is a "virtual PPA"*
- *Accounts involved in agreement are still under existing rate schedule, but there would be 3 line items*
- *LMP credit (local marginal price- hourly based price)*
- *Capacity Credit*
- o *MG&E RER*
- *Done on 15 min interval basis*
- ☐ *No carry over if there is over-production*
- ☐ *Excess energy has a buyback rate:*
- *Includes on-peak demand reduction credit*
- *Early termination provision for customers*
- *Buyback rate discussion: LMP, avoided cost, etc?*
- *Differences between WEPCO and MG&E DRER/RER Service/Agreement*
- o *Local DRER would give Milwaukee area the air quality benefits*
- *Utility already has local distribution*
- o *What is the likeliness of PSC to improve DRER?*
- *How long could this take?*
- o *When is WE Energies next expected rate case?*
- *Sounds like they are going to "freeze" this year*
- *Motion to move forward of negotiated solution to improve the service agreement:*
- Approved*
- o *Addition of early termination clause*
- o *Technology use: bi-facial modules*
- *Dane County is making use of MG&E's RER*
- *No one currently taking us of WEPCO's DRER, that we know of*
- *MKE consumes large amount of power at night from street lights - Wind production would benefit this consumption trend, over solar*
- *MKE - Nearing completion of Solar Now project near airport*
- *Landfill area for solar: no penetrations to the ground - limited to ballast racking*
- o *Other potential solutions to get the modules off the ground?*
- *Concrete feet to elevate solar array 3 ft. minimum off the ground*

4. Discuss green tariff options

Minutes provided by Erick Shambarger.
